THE STATEMENT UNDER SECTION 102 (1) OF THE COMPANIES ACT, 2013

### **Item No 3**

In accordance with the provisions of Section 148 of the Act read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditors has to be ratified by the Members of the Company.

Accordingly, consent of the Members is sought for passing an Ordinary Resolution as set out at Item No.3 of the Notice for ratification of the remuneration payable to the Cost Auditors for the Financial Year ending 31<sup>st</sup> March, 2021.

None of the Directors, Key Managerial Personnel of the Company and their relatives are, in any way, concerned or interested, financially or otherwise, in the resolution set out at Item No. 3 of the Notice.

The Directors recommend the Resolution as stated at Item No.3 of the Notice for approval of the Members by way of an Ordinary Resolution.

### **Item No. 4**

Shri Mukesh Manglik has been a Non-Executive Director on the Board of the Company since October, 2014 and associated with Inox Group since 2008. Considering the background, experience, knowledge and contribution made by Shri Mukesh Manglik in the growth and development of the Company, the Board of Directors of the Company in their meeting held on 19<sup>th</sup> May, 2020, appointed him as a Whole-time Director of the Company for a period of two years with effect from 19<sup>th</sup> May, 2020, subject to approval of the Members on such terms and conditions including remuneration as contained in the Resolution as set out in Item No. 4.

Shri Mukesh Manglik has given his consent to act as Whole-time Director of the Company and has also given declaration that he is not disqualified to be appointed as a Whole-time Director in terms of the provisions of Sections 164(2), 196, 197 read with Schedule V of the Companies Act, 2013.

In the opinion of the Board, he fulfills the conditions specified in the Act and Rules framed thereunder for his appointment. In compliance of Sections 196, 197 read with Schedule V of the Companies Act, 2013 and the Rules framed thereunder, the appointment of Shri Mukesh Manglik as a Whole-time Director is being placed before the Members for their approval.

The Nomination & Remuneration Committee and the Board of Directors at their respective meeting held on 19<sup>th</sup> May, 2020 approved the remuneration of Rs. 61 Lakhs payable to Shri Mukesh Manglik, Whole-time Director of the Company. As the Company has inadequate profits during the Financial Year ended 31<sup>st</sup> March, 2020, the remuneration paid/ payable to Shri Mukesh Manglik shall be as per the provisions of Section II of Part II of Schedule V of the Companies Act, 2013 ('the Act').

The information as required under Schedule V of the Act for seeking approval/consent of the shareholders is listed herein below:

**II. Information about the appointee:**

S.No.	Particulars	Remarks
1.	Background details	Shri Mukesh Manglik, 68 years, holds Bachelor's Degree in Electrical from Veermata Jijabai Technological Institute, Mumbai. He possesses has more than four decades of experience in the area of design and development of power electronics and process

		controls including over 18 years of experience in the wind industry with expertise in engineering, operations, maintenance and commissioning of wind turbine generators.
2.	Past remuneration	-
3.	Recognition or awards	N.A
4.	Job profile and his suitability	He possesses over 18 years of experience in the wind energy with expertise in engineering, operations, maintenance and commissioning of wind turbine generators. He has been found suitable for this assignment and his continued association is considered to be in the best interest of the Company.
5.	Remuneration proposed	The remuneration of Shri Mukesh Manglik is detailed in the resolution.
6.	Comparative remuneration profile with respect to industry, size of the company, profile of the position and person	In the past few years, the remuneration of Senior Executives in the industry has increased significantly. The remuneration proposed to be paid to him is purely based on merit considering his vast experience and the responsibilities entrusted upon him. Further, the Nomination and Remuneration Committee constituted by the Board, perused the remuneration of managerial personnel in other companies comparable with the size of the Company, industry benchmarks in general, profile and responsibilities entrusted upon him before recommending the remuneration as proposed above.
7.	Pecuniary Relationship directly or indirectly with the company or relationship with the managerial personnel, if any.	Shri Mukesh Manglik has no pecuniary relationship directly or indirectly either with the Company or with any of the managerial personnel of the Company.

### III. Other Information:

S.No.	Particulars	Remarks
1.	Reasons for loss or inadequate profits	The unexpected change in regime from feed in tariff to auction regime led to disruption of operations in the Wind Sector for almost 2.5 to 3 years. Due to the effects of this change, the Sector added only 1.7 GW in FY 2017-18 and 1.5 GW in FY 2018-19 as against 5.5 GW added in the FY 2016-17.
2.	Steps taken or proposed to be taken for improvement.	During the year, the Company focussed on reducing fixed cost, supply chain, administration and manpower cost alongwith commissioning of SECI I project.
3.	Expected increase in productivity and profits in measurable terms	The Company's common infrastructure for 750 MW on the central grid is ready which will enable the Company to do further projects operations on a plug and play basis. Post the painful transition period, the Sector is now looking up. As most of the issues relating to regulations in the wind sector and connectivity have been resolved, the Company is quite confident about its future prospects.

### IV. Disclosures:

The following disclosures shall be mentioned in the Board of Director's report under the heading "Corporate Governance", if any, attached to the Financial statement:

S.No.	Particulars	Remarks
1.	All elements of remuneration package such as salary, benefits, bonuses, stock options, pension etc., of all the directors.	Requisite disclosure has been made in the Board's Report.
2.	Details of fixed component and performance linked incentives alongwith the performance criteria.	Requisite disclosure has been made in the Board Report.
3.	Service contracts, notice period, severance fees etc.	Service Contract for 19 <sup>th</sup> May, 2020 to 18 <sup>th</sup> May, 2022 Notice Period : 3 months

4.	Stock option details, if any, and whether the same has been issued at a discount as well as the period over which accrued and over which exercisable.	N.A.
----	---	------

Brief resume of Shri Mukesh Manglik, nature of his experience in specific functional areas and names of companies in which he holds Directorships and Memberships/ Chairmanships of Board Committees, Shareholding and relationships between directors, are provided at Note No. 4 of the Notice.

Except Shri Mukesh Manglik and his relatives, none of the Directors and Key Managerial Personnel of the Company and their relatives is/are, in any way, concerned or interested, financially or otherwise, in this resolution.

The Board recommends the Resolution as stated at Item No. 4 of the Notice for approval of the Members of the Company as a Special Resolution.

#### **Item No. 5**

At the 11<sup>th</sup> Extra-Ordinary General Meeting of the Company held on 20<sup>th</sup> August, 2019, the members had, inter-alia approved the appointment of Shri Manoj Shambhu Dixit (DIN: 06709232) as a Whole-time Director of the Company for a period of one year w.e.f. 8<sup>th</sup> October, 2019.

The Board of Directors at its meeting held on 28<sup>th</sup> August, 2020, based on the recommendation of the Nomination and Remuneration Committee, re-appointed him as Whole-time Director of the Company for a further period of one year commencing from 8<sup>th</sup> October, 2020 on such terms and conditions including remuneration as contained in the Resolution as set out in Item No. 5. In the opinion of the Board, he fulfills the conditions specified in the Act and Rules framed thereunder for his appointment. In compliance of Sections 196, 197 read with Schedule V of the Companies Act, 2013 and the Rules framed thereunder, the re-appointment of Shri Manoj Shambhu Dixit as a Whole-time Director is being placed before the Members for their approval.

The Nomination & Remuneration Committee and the Board of Directors at their respective meeting held on 28<sup>th</sup> August, 2020 approved the remuneration of Rs. 40 Lakhs payable to Shri Manoj Shambhu Dixit as a Whole-time Director of the Company. As the Company has inadequate profits during the Financial Year ended 31<sup>st</sup> March, 2020, the remuneration paid/ payable to Shri Manoj Shambhu Dixit shall be as per the provisions of Section II of Part II of Schedule V of the Companies Act, 2013 ('the Act').

The remuneration proposed to be paid to him is purely based on merit considering his vast experience and the responsibilities entrusted upon him. Further, the Nomination and Remuneration Committee constituted by the Board, perused the remuneration of managerial personnel in other companies comparable with the size of the Company, industry benchmarks in general, profile and responsibilities entrusted upon him before recommending the remuneration as proposed above.
7.	Pecuniary Relationship directly or indirectly with the company or relationship with the managerial personnel, if any.	Shri Manoj Shambhu Dixit has no pecuniary relationship directly or indirectly either with the Company or with any of the managerial personnel of the Company.

## III. Other Information:

S.No.	Particulars	Remarks
1.	Reasons for loss or inadequate profits	The unexpected change in regime from feed in tariff to auction regime led to disruption of operations in the Wind Sector for almost 2.5 to 3 years. Due to the effects of this change, the Sector added only 1.7 GW in FY 2017-18 and 1.5 GW in FY 2018-19 as against 5.5 GW added in the FY 2016-17.
2.	Steps taken or proposed to be taken for improvement.	During the year, the Company focussed on reducing fixed cost, supply chain, administration and manpower cost alongwith commissioning of SECI I project.

3.	Expected increase in productivity and profits in measurable terms	The Company's common infrastructure for 750 MW on the central grid is ready which will enable the Company to do further projects operations on a plug and play basis. Post the painful transition period, the Sector is now looking up. As most of the issues relating to regulations in the wind sector and connectivity have been resolved, the Company is quite confident about its future prospects.

#### **Nomination and Remuneration Policy**

##### **1. Preface:**

- a. The present Human Resource Policy of the Company considers human resources as its invaluable assets and has its objective the payment of remuneration to all its employees appropriate to employees' role and responsibilities and the Company's goals based on the performance of each of its employees in the Company.
- b. This Nomination and Remuneration Policy (NR Policy) has been formulated, *inter alia*, for nomination and remuneration of Directors, Key Managerial Personnel (KMP), Senior Management Personnel and other Employees of Inox Wind Infrastructure Services Limited (hereinafter referred to as the Company), in accordance with the requirements of the provisions of Section 178 of the Companies Act, 2013 and Listing Agreement.

##### **2. Objectives of this NR Policy:**

- a. To lay down criteria for identifying persons who are qualified to become Directors and who may be appointed in Senior Management of the Company in accordance with the criteria laid down by NR Committee and recommend to the Board their appointment and removal.
- b. To lay down criteria to carry out evaluation of every Director's performance.
- c. To formulate criteria for determining qualification, positive attributes and Independence of a Director;
- d. To determine the composition and level of remuneration, including reward linked with the performance, which is reasonable and sufficient to attract, retain and motivate Directors, KMP, Senior Management Personnel and other employees to work towards the long term growth and success of the Company.

##### **3. Definitions:**

- a. "Board" means the Board of Directors of the Company.
- b. "Directors" means the Directors of the Company.

- c. "Committee" means the Nomination and Remuneration Committee of the Company as constituted or reconstituted by the Board from time to time.
- d. "Company" means Inox Wind Infrastructure Services Limited.
- e. "Key Managerial Personnel"(KMP) means
  - Managing Director; or Chief Executive Officer; or Manager and in their absence, a Whole-time Director;
  - Company Secretary;
  - Chief Financial Officer
- f. "Senior Management Personnel" means, the personnel of the Company who are members of its core management team excluding Board of Directors and KMPs, comprising of all members of management on level below the Executive Directors including the functional heads.
- g. "Other employees" means, all the employees other than the Directors, KMPs and the Senior Management Personnel.

#### 4. NR Policy

NR Policy is divided into three parts as follows:

##### I. Qualifications

**Criteria for identifying persons who are qualified to be appointed as a Directors / KMP /Senior Management Personnel of the Company:**

##### a. Directors

Section 164 of the Companies Act, 2013 states disqualifications for appointment of any person to become Director of any Company. Any person who in the opinion of the Board is not disqualified to become a Director, and in the opinion of the Board, possesses the ability, integrity and relevant expertise and experience, can be appointed as Director of the Company.

##### b. Independent Directors

For appointing any person as an Independent Director he/she should possess qualifications as mentioned in Rule 5 of The Companies (Appointment and Qualification of Directors) Rules, 2014.

##### c. Senior Management Personnel and KMP and Other Employees

The Company has an Organogram displaying positions of Senior Management including KMP and other positions with the minimum qualifications and experience requirements for each positions which commensurate with the size of its business and the nature and complexity of its operations. Any new recruit in the Company is to match the requirements prescribed in the Organogram of the Company.

#### II. Remuneration

##### a. Structure of Remuneration for the Managing Director, Key Managerial Personnel and Senior Management Personnel

The Managing Director, Key Managerial Personnel and Senior Management Personnel (other than Non-executive Directors) receive Basic Salary and other Perquisites. The Perquisites include other allowances. The Managing Director is also eligible for payment of Commission on net profits as permissible under Section 197 of the Companies Act, 2013 and approved by the Shareholders from time to time to be payable to the Managing Director of the Company . The total salary includes fixed and variable components.

The Company's policy is that the total fixed salary should be fair and reasonable after taking into account the following factors:

- The scope of duties, the role and nature of responsibilities
- The level of skill, knowledge and experience of individual
- Core performance requirements and expectations of individuals

- The Company's performance and strategy
- Legal and industrial Obligations

The table below depicts the standard components of remuneration package

<b>Fixed Component</b>		
Basic Salary	Allowances	Superannuation

#### **b. Structure of Remuneration for Non-executive Director**

Non-executive Directors are remunerated to recognize responsibilities, accountability and associated risks of Directors. The total remuneration of Non-executive Directors may include all, or any combination of following elements:

- i. Fees for attending meeting of the Board of Directors as permissible under Section 197 of the Companies Act, 2013 read with Rule 4 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 and decided at the Meeting of the Board of Directors.
- ii. Fees for attending meetings of Committees of the Board which remunerate Directors for additional work on Board Committee as permissible under Section 197 of the Companies Act, 2013 read with Rule 4 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 and decided at the Meeting of the Board of Directors.
- iii. Commission on net profits as permissible under Section 197 of the Companies Act, 2013 and decided by the Board from time to time to be payable to any of the Non-executive Director.
- iv. Non-Executive Directors are entitled to be paid all traveling and other expenses they incur for attending to the Company's affairs, including attending and returning from General Meetings of the Company or Meetings of the Board of Directors or Committee of Directors.

Any increase in the maximum aggregate remuneration payable beyond permissible limit under the Companies Act, 2013 shall be subject to the approval of the Shareholders' at the Annual General Meeting by special resolution and/or of the Central Government, as may be applicable.

#### **c. Structure of Remuneration for Other Employees**

The power to decide structure of remuneration for other employees has been delegated to HR Department of the Company.

### **III. Evaluation**

#### **a. Criteria for evaluating Non-executive Board members:**

Section 149 of the Companies Act, 2013 read with Schedule IV of the said Act states that the Independent Directors shall at its separate meeting review performance of non-independent directors and the Board as a whole and the performance evaluation of Independent Directors shall be done by the entire Board of Directors excluding the Director being evaluated.

#### **b. Criteria for evaluating performance of Key Managerial Personnel and Senior Management Personnel**

Criteria for evaluating performance of KMP and Senior Management Personnel shall be as per the HR Guideline on Performance Management System and Development Plan of the Company.

**c. Criteria for evaluating performance of Other Employees**

The power to decide criteria for evaluating performance of Other Employees has been delegated to HR Department of the Company.

**5. Communication of this Policy**

For all Directors, a copy of this Policy shall be handed over within one month from the date of approval by the Board. This Policy shall also be posted on the web-site of the Company and in the Annual Report of the Company.

**6. Amendment**

Any change in the Policy shall, on recommendation of NR Committee, be approved by the Board of Directors of the Company. The Board of Directors shall have the right to withdraw and / or amend any part of this Policy or the entire Policy, at any time, as it deems fit, or from time to time, and the decision of the Board in this respect shall be final and binding.

## INDEPENDENT AUDITOR'S REPORT

To the Members of Inox Wind Infrastructure Service Limited

**Report on the Audit of the Standalone Financial Statements**

### Opinion

We have audited the Standalone Financial Statements of Inox Wind Infrastructure Service Limited ("the Company"), which comprise the balance sheet as at 31st March 2020, and the statement of Profit and Loss, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, and its loss, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone Financial Statements.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The Key audit Matters	How our audit addressed the key audit matter

<b>Allowance for Expected Credit Losses</b>	
<p>The Company determines the allowance for credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. The Company considered current and anticipated future economic conditions relating to industries the Company deals with and the countries where it operates. In calculating expected credit loss, the Company has also considered credit reports and other related credit information for its customers to estimate the probability of default in future.</p> <p>We identified allowance for credit losses as a key audit matter because the Company exercises significant judgment in calculating the expected credit losses.</p> <p>Refer Note No. 3(13), Note No. 14 and Note No. 37 to the Standalone Financial Statements</p>	<p>Our audit procedures related to the allowance for credit losses for trade receivables and unbilled revenue included the following, among others:</p> <p>We tested the effectiveness of controls over the</p> <p>(1) development of the methodology for the allowance for credit losses, including consideration of the current and estimated future economic conditions</p> <p>(2) completeness and accuracy of information used in the estimation of probability of default and</p> <p>(3) computation of the allowance for credit losses.</p> <p>For a sample of customer:</p> <p>We tested the input data such as credit reports and other credit related information used in estimating the probability of default by comparing them to external and internal sources of information.</p> <p>We tested the mathematical accuracy and computation of the allowances by using the same input data used by the Company.</p>

<b>Litigation Matters</b>	
<p>The Company has certain significant pending legal proceedings with Judicial/Quasi-Judicial for various complex matters with contractor/transporter, customer and other parties, continuing from earlier years.</p> <p>Further, the company has material uncertain tax positions including matters under dispute which involves significant judgment to determine the possible outcome of these disputes.</p> <p>Refer Note no. 43 of the Standalone Financial Statements.</p> <p>Due to complexity involved in these</p>	<ul style="list-style-type: none"> <li>➤ Assessed the management's position through discussions with the in-house legal expert and external legal opinions obtained by the Company (where considered necessary) on both, the probability of success in the aforesaid cases, and the magnitude of any potential loss.</li> <li>➤ Discussed with the management on the development in these litigations during the year ended March 31, 2020.</li> <li>➤ Rolled out of enquiry letters to the Company's legal counsel and noted the responses received.</li> <li>➤ Assessed the responses received from Company's legal counsel by engaging legal experts.</li> </ul>

<p>litigation matters, management's judgement regarding recognition and measurement of provisions for these legal proceedings is inherently uncertain and might change over time as the outcomes of the legal cases are determined. Accordingly, it has been considered as a key audit matter.</p>	<ul style="list-style-type: none"> <li>➤ Assessed the objectivity, independence and competence of the Company's legal counsel involved in the process and legal experts engaged by us.</li> <li>➤ Reviewed the disclosures made by the Company in the financial statements in this regard.</li> </ul>
--	---

### **Emphasis of Matter**

We draw attention to Note No. 48 of the Standalone Financial Statements which describes the management's assessment of the impact of the outbreak of Covid-19 on revenue, trade receivables, investments and other assets. The management believes that no adjustments are required in the financial statements as there is no impact in the current financial year. However, in view of highly uncertain economic environment and its likely effect on future revenues due to Covid-19, a definitive assessment of the impact on the subsequent periods is dependent upon circumstances as they evolve.

Our report is not modified in respect of above matter.

### **Information Other than the Standalone Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information (hereinafter referred as "the Reports"), but does not include the Standalone Financial Statements and our auditor's report thereon. The Reports is expected to be made available to us after the date of this auditor's report.

Our opinion on the Standalone Financial Statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

### **Responsibility of Management for Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other

irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are

required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Other Matter**

Due to the COVID-19 related lockdown, we were unable to observe the Management's year-end physical verification of inventory at respective locations. We have therefore, relied on the related alternative audit procedures to obtain comfort over the existence and condition of inventory at year end.

Our opinion is not modified in respect of this matter.

#### **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A" statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

3. As required by Section 143(3) of the Act, we report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

(b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

(c) The Balance Sheet, the Statement of Profit and Loss, statement of changes in equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.

(d) In our opinion, the aforesaid Standalone Financial Statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

(e) On the basis of the written representations received from the directors as on 31st March, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.

(f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

(g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company does not have any pending litigations which would impact its financial position other than disclosed in the Standalone Financial Statements (Refer Note No. 43 of the Standalone Financial Statements) ;
- ii. The Company had made provision, as required under the applicable law or accounting standard, for material foreseeable losses on long-term contracts including derivative contracts (Refer Note No. 37 of the Standalone Financial Statements); and
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE-A TO THE INDEPENDENT AUDITORS' REPORT

**(Referred to in paragraph - 1 under the heading of "Report on Other Legal and Regulatory Requirements" of our Report of even date.)**

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given by the management and the books of account and other records examined by us in the normal course of audit and to the best of our knowledge and belief, we report that:-

- (i)
  - (a) The company has maintained proper records showing full particulars including quantitative details and situation of property, plant and equipments.
  - (b) The management has physically verified the property, plant and equipments at reasonable intervals and no material discrepancies were noticed on such verification.
  - (c) The title deeds of immovable properties are held in the name of the Company.
- (ii) The management has physically verified the inventory at reasonable intervals and no material discrepancy was noticed on physical verification of stocks by management as compared to book records.
- (iii) The Company has granted loan, secured or unsecured to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Companies Act 2013.
  - a) In our opinion, the rate of interest and other terms and conditions of such loans are not, prima facie, prejudicial to the company's interest.
  - b) Based on information provided by the management, the loans are repayable on demand and there is no stipulation of schedule of repayment of principal and repayment of interest accordingly we unable to make specific comment on the regularity of repayment of principal and interest.
  - c) Based on information provided by the management, the loans are repayable on demand and hence this paragraph is not applicable
- (iv) In our opinion, in respect of loans, investments, guarantees, and security provisions of section 185 and 186 of the Companies Act, 2013 have been complied with.
- (v) The company has not accepted any deposits, hence the paragraph 3(v) of the order is not applicable.
- (vi) We have broadly reviewed the books of account maintained by the company pursuant to the Rules made by the Central Government for the maintenance of cost records under section 148 of the Act, and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not, nor we are required, carried out details examination of such accounts and records.
- (vii)
  - (a) On the basis of our examination of the records of the company, amounts deducted/accrued in the books of account in respect of undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and any other statutory

dues have generally been regularly deposited during the year by the company with the appropriate authorities, though there has been a slight delay in a few cases, to the extent applicable to it.

In our opinion, no undisputed amounts payable in respect of provident fund, income tax, sales tax, value added tax, duty of customs, service tax, cess and other material statutory dues were in arrears as at 31 March 2020 for a period of more than six months from the date they became payable except the following:

Name of the statute	Name of dues	Amount (in lakhs)	Period to which the amount relates	Due Date	Date of Payment
Building and other construction workers act	Labour Cess On construction	256.83	Upto Financial Year 2018-19	---	---
Income Tax Act, 1961	Tax deducted at source	110.44	F Y 2019-2020	---	---
Income Tax Act, 1961	Interest on TDS	36.29	F Y 2019-2020	---	---
GST Act, 2017	Interest on GST	65.15	F Y 2019-2020	---	---

(b) On the basis of our examination of the books of accounts and records, there are no dues of income tax or sales tax or service tax or duty of customs or duty of excise or value added tax or cess which have not been deposited on account of any dispute.

- (viii) On the basis of our examination of the books of accounts and records and in our opinion, there is no default in repayment of loans or borrowings to a financial institution, bank, government or dues to debenture holders.
- (ix) In our opinion the Company did not raise any money by way of initial public offer or further public offer (including debt instruments) or term loans, hence the paragraph 3(ix) of the order is not applicable.
- (x) In our opinion, no material fraud by the company or on the Company by its officers or employees has been noticed or reported during the course of our audit.
- (xi) In our opinion, the company has paid/provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Act.
- (xii) In our opinion, the Company is not a nidhi company. Hence, paragraph 3(xii) of the Order is not applicable.

- (xiii) Based on our examination of the records of the Company and in our opinion, transactions with the related parties are in compliance with sections 177 and 188 of the Act where applicable and details of such transactions have been disclosed in the financial statements as required by the applicable Indian Accounting Standards.
- (xiv) Based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year.
- (xv) Based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him.
- (xvi) Based on our examination of the records of the Company, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934.

**ANNEXURE - B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF INOX WIND INFRASTRUCTURES SERVICES LIMITED**

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of Inox Wind Infrastructures Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls with reference to Financial Statements**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## **Inox Wind Infrastructure Services Limited**

### **Notes to the standalone financial statements for the year ended 31 March 2020**

#### **1. Company information**

Inox Wind Infrastructure services Limited ("the Company") is a public limited company incorporated in India. The Company is engaged in the business of Erection, Procurement and Commissioning ("EPC"), Operations and Maintenance ("O&M"), Common Infrastructure Facilities services and Development of wind farm services for WTGs. The Company is a subsidiary of Inox Wind Limited which is a subsidiary of GFL Limited and its ultimate holding company is Inox Leasing and Finance Limited. The area of operations of the Company is within India.

The Company's registered office is located at Survey No. 1837 & 1834 ABS Tower, 2<sup>nd</sup> Floor, Old Padra Road, Vadodara- 390007, Gujarat.

#### **2. Statement of compliance and basis of preparation and presentation**

##### **2.1 Statement of Compliance**

These financial statements are the separate financial statements of the Company (also called standalone financial statements) and comply in all material aspects with the Indian Accounting Standards ("Ind AS") notified under section 133 of the Companies Act, 2013 ("the Act") and other relevant provisions of the Act.

##### **2.2 Basis of Measurement**

These Financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakhs, unless otherwise indicated.

These financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the significant accounting policies.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

## Inox Wind Infrastructure Services Limited

### Notes to the standalone financial statements for the year ended 31 March 2020

#### 2.3 Basis of Preparation and Presentation

Accounting policies have been consistently applied except where a newly issued accounting standard initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

These financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements.

Any asset or liability is classified as current if it satisfies any of the following conditions:

- the asset/liability is expected to be realized/settled in the Company's normal operating cycle;
- the asset is intended for sale or consumption;
- the asset/liability is held primarily for the purpose of trading;
- the asset/liability is expected to be realized/settled within twelve months after the reporting period;
- the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- in the case of a liability, the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current.

For the purpose of current/non-current classification of assets and liabilities, the Company has ascertained its normal operating cycle as twelve months.

These Financial Statements were authorized for issue by the Company's Board of Directors on 27 June 2020.

#### 2.4 Particulars of investments in subsidiaries and associates as at 31 March 2020 are as under:

See Note 7 for subsidiaries incorporated during the year and subsequently accounted as 'associates' on cessation of control.

### 3. Significant Accounting Policies

#### 3.1 Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Company, liabilities incurred by the Company to the former owners of the acquiree and the equity interests issued by the Company in exchange of control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Taxes and Ind AS 19 Employee Benefits respectively;
- assets (or disposal Group) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.

In case of a bargain purchase, before recognising a gain in respect thereof, the Company determines whether there exists clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. Thereafter, the Company reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and recognises any additional assets or liabilities that are identified in that reassessment. The Company then reviews the procedures used to measure the amounts that Ind AS requires for the purposes of calculating the bargain purchase. If the gain remains after this reassessment and review, the Company recognises it in other comprehensive income and accumulates the same in equity as capital reserve. This gain is attributed to the acquirer. If there does not exist clear evidence of the underlying reasons for classifying the business combination as a bargain purchase, the Company recognises the gain, after reassessing and reviewing (as described above), directly in equity as capital reserve.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at fair value or, when applicable, on the basis specified in another Ind AS.

**Notes to the standalone financial statements for the year ended 31 March 2020**

When the consideration transferred by the Company in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill or capital reserve, as the case may be. Measurement period adjustments are adjustments that arise from additional information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at fair value at subsequent reporting dates with the corresponding gain or loss being recognised in profit or loss.

When a business combination is achieved in stages, the Company's previously held equity interest in the acquiree is remeasured to its acquisition-date fair value and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Company reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see above), or additional assets or liabilities are recognised to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

**3.2 Goodwill**

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business (see Note 3.1 above) less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Company's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

**3.3 Revenue recognition**

Effective April 1, 2018, the Company has applied Ind AS 115 which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised. Ind AS 115 replaces Ind AS 18 Revenue and Ind AS 11 Construction Contracts. The Company has adopted Ind AS 115 using the cumulative

**Notes to the standalone financial statements for the year ended 31 March 2020**

effect method. The effect of initially applying this standard is recognised at the date of initial application (i.e. April 1, 2018). The standard is applied retrospectively only to contracts that are not completed as at the date of initial application and the comparative information in the statement of profit and loss is not restated – i.e. the comparative information continues to be reported under Ind AS 18 and Ind AS 11. Refer note 3.3 – Significant accounting policies – Revenue recognition in the Annual report of the Company for the year ended March 31, 2018, for the revenue recognition policy as per Ind AS 18 and Ind AS 11. No impact of the adoption of the standard on the financial statements of the Company.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

- Revenue from time and material and job contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.
- Revenue from the sale of WTGs is recognised at over the time when the significant risks and rewards of the ownership have been transferred to the buyers and there is no continuing effective control over the goods or managerial involvement with the goods. Revenue from sale of WTGs is recognised on supply in terms of the respective contracts. Revenue from sale of power is recognised on the basis of actual units generated and transmitted to the purchaser.
- Revenue from services rendered is recognised in profit or loss in proportion to the stage of completion of transaction at the reporting date and when the costs incurred for the transactions and the costs to complete the transaction can be measured reliably, as under:  
Revenue from EPC is recognised on the basis of stage of completion by reference to surveys of work performed. Revenue from operations and maintenance and common infrastructure facilities contracts is recognised over the period of the contract, on a straight-line basis. Revenue from wind farm development is recognised when the wind farm site is developed and transferred to the customers in terms of the respective contracts.
- Revenue is measured at the fair value of the consideration received or receivable and is recognised when it is probable that the economic benefits associated with the transaction will flow to the Company and the amount of income can be measured reliably. Revenue is net of returns and is reduced for rebates, trade discounts, refunds and other similar allowances. Revenue is net of goods and service tax.
- Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer.
- Revenue also excludes taxes collected from customers. Revenue from subsidiaries is recognised based on transaction price which is at arm's length. Contract assets are recognised when there is excess of revenue earned over billings on contracts.
- Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.
- Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.
- The billing schedules agreed with customers include periodic performance based payments and / or milestone based progress payments. Invoices are payable within contractually agreed credit period.
- In accordance with Ind AS 37, the Company recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.
- Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation, or transaction price of an existing

**Notes to the standalone financial statements for the year ended 31 March 2020**

obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

**Use of significant judgments in revenue recognition**

- The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.
  - The Company uses judgement to determine an appropriate standalone selling price for a performance obligation. The Company allocates the transaction price to each performance obligation on the basis of the relative standalone selling price of each distinct product or service promised in the contract. Where standalone selling price is not observable, the Company uses the expected cost plus margin approach to allocate the transaction price to each distinct performance obligation.
  - The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.
  - Revenue for fixed-price contract is recognised using percentage-of-completion method. The Company uses judgement to estimate the future cost-to-completion of the contracts which is used to determine the degree of completion of the performance obligation.
- Contract fulfilment costs are generally expensed as incurred except for certain software licence costs which meet the criteria for capitalisation. Such costs are amortised over the contractual period or useful life of licence whichever is less. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered.

Dividend income is recorded when the right to receive payment is established. Interest income is recognised using the effective interest method.

**3.3.1 Rendering of services**

Revenue from services rendered is recognised in profit or loss in proportion to the stage of completion of transaction at the reporting date and when the costs incurred for the transactions and the costs to complete the transaction can be measured reliably, as under:

Revenue from EPC is recognised on the basis of stage of completion by reference to surveys of work performed. Revenue from operations and maintenance and common infrastructure facilities contracts is recognised over the period of the contract, on a straight-line basis. Revenue from wind farm development is recognised when the wind farm site is developed and transferred to the customers in terms of the respective contracts.

**3.3.2 Other income**

Interest income from a financial asset is recognised on time basis, by reference to the principal outstanding at the effective interest rate applicable, which is the rate which exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition. Insurance claims are recognised to the extent there is a reasonable certainty of the realizability of the claim amount.

**3.4 Leases**

## **Inox Wind Infrastructure Services Limited**

### **Notes to the standalone financial statements for the year ended 31 March 2020**

Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments.

#### **3.5 Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

#### **3.6 Employee benefits**

##### **3.6.1 Retirement benefit costs**

Recognition and measurement of defined contribution plans:

Payments to defined contribution benefit plan viz. government administered provident funds and pension schemes are recognised as an expense when employees have rendered service entitling them to the contributions.

Recognition and measurement of defined benefit plans:

For defined benefit plan, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate to the net defined benefit plan at the start of the reporting period, taking account of any change in the net defined benefit plan during the year as a result of contributions and benefit payments. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- remeasurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the consolidated balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

##### **3.6.2 Short-term and other long-term employee benefits**

## **Inox Wind Infrastructure Services Limited**

### **Notes to the standalone financial statements for the year ended 31 March 2020**

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave, bonus etc. in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

#### **3.7 Taxation**

Income tax expense represents the sum of the tax currently payable and deferred tax.

##### **3.7.1 Current tax**

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years, items that are never taxable or deductible and tax incentives. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

##### **3.7.2 Deferred tax**

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which the benefits of the temporary differences can be utilised and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

## **Inox Wind Infrastructure Services Limited**

### **Notes to the standalone financial statements for the year ended 31 March 2020**

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

#### **3.7.3 Presentation of current and deferred tax :**

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

#### **3.8 Property, plant and equipment**

An item of Property, Plant and Equipment (PPE) that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, property, plant and equipment are carried at cost, as reduced by accumulated depreciation and impairment losses, if any.

The Company identifies and determines cost of each part of an item of property, plant and equipment separately, if the part has a cost which is significant to the total cost of that item of property, plant and equipment and has useful life that is materially different from that of the remaining item.

Cost comprises of purchase price / cost of construction, including non-refundable taxes or levies and any expenses attributable to bring the PPE to its working condition for its intended use. Project pre-operative expenses and expenditure incurred during construction period are capitalized to various eligible PPE. Borrowing costs directly attributable to acquisition or construction of qualifying PPE are capitalised.

Spare parts, stand-by equipment and servicing equipment that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life. Costs in nature of repairs and maintenance are recognized in the Statement of Profit and Loss as and when incurred.

Cost of assets not ready for intended use, as on the Balance Sheet date, is shown as capital work in progress. Advances given towards acquisition of property, plant and equipment in outstanding at each Balance Sheet date are disclosed as Other Non-Current Assets.

Depreciation is recognised so as to write off the cost of PPE (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The useful lives prescribed in Schedule II to the Companies Act, 2013 are considered as the minimum lives. If the management's estimate of the useful life of property, plant and equipment at the time of acquisition of the asset or of the remaining useful life on a subsequent review is shorter than that envisaged in the aforesaid schedule, depreciation is provided at a higher rate based on the management's estimate of the useful life/remaining useful life. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

PPE are depreciated over its estimated useful lives, determined as under:

## Inox Wind Infrastructure Services Limited

### Notes to the standalone financial statements for the year ended 31 March 2020

- Freehold land is not depreciated.
- On other items of PPE, on the basis of useful life as per Part C of Schedule II to the Companies Act, 2013.

The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from its use or disposal. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

#### 3.9 Intangible assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortization is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Intangible assets acquired in a business combination and recognised separately from goodwill are initially recognised at their fair value at the acquisition date (which is regarded as their cost). Subsequent to initial recognition, intangible assets acquired in a business combination are reported at cost less accumulated amortisation and impairment losses, on the same basis as intangible assets as above.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

#### Estimated useful lives of intangible assets

Estimated useful lives of the intangible assets are as follows:

- Software 6 years

#### 3.10 Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets (other than goodwill) to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. If it is not possible to measure fair value less cost of disposal because there is no basis for making a reliable estimate of the price at which an orderly transaction to

**Notes to the standalone financial statements for the year ended 31 March 2020**

sell the asset would take place between market participants at the measurement dates under market conditions, the asset's value in use is used as recoverable amount.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

**3.11 Inventories**

Inventories are valued at lower of the cost and net realisable value. Cost is determined using weighted average cost basis.

Cost of inventories comprises all costs of purchase, duties and taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition.

Cost of work-in-progress includes the cost of materials, conversion costs, an appropriate share of fixed and variable overheads and other costs incurred in bringing the inventories to their present location and condition. Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

**3.12 Provisions and contingencies**

The Company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably.

When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

Contingent liabilities acquired in a business combination are initially measured at fair value at the acquisition date. At the end of subsequent period, such contingent liabilities are measured at the higher of the amounts that would be recognised in accordance with Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets and the amount initially recognised less cumulative amortisation recognised in accordance with Ind AS 18 Revenue, if any.

**3.13 Financial instruments**

Financial assets and financial liabilities are recognised when the Company member becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

**A) Financial assets**

**a) Initial recognition and measurement:**

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument. On initial recognition, a financial asset is recognised at fair value, in case of financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction costs are recognised in the statement of profit and loss. In other cases, the transaction costs are attributed to the acquisition value of the financial asset.

**b) Effective interest method:**

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the "Other income" line item.

**c) Subsequent measurement:**

For subsequent measurement, the Company classifies a financial asset in accordance with the below criteria:

- i. The Company's business model for managing the financial asset and
- ii. The contractual cash flow characteristics of the financial asset.

Based on the above criteria, the Company classifies its financial assets into the following categories:

**i. Financial assets measured at amortized cost:**

A financial asset is measured at the amortized cost if both the following conditions are met:

- a) The Company's business model objective for managing the financial asset is to hold financial assets in order to collect contractual cash flows, and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to cash and bank balances, trade receivables, loans, certain investments and other financial assets of the Company. Such financial assets are subsequently measured at amortized cost using the effective interest method.

The amortized cost of a financial asset is also adjusted for loss allowance, if any.

**ii. Financial assets measured at FVTOCI:**

A financial asset is measured at FVTOCI if both of the following conditions are met:

- a) The Company's business model objective for managing the financial asset is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Investments in equity instruments, classified under financial assets, are initially measured at fair value. The Company may, on initial recognition, irrevocably elect to measure the same either at FVTOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument are recognised as other income in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVTOCI.

The Company does not have any financial assets in this category.

**iii. Financial assets measured at FVTPL:**

A financial asset is measured at FVTPL unless it is measured at amortized cost or at FVTOCI as explained above. This is a residual category applied to all other investments of the Company. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

**d) Derecognition:**

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is derecognized (i.e. removed from the Company's Balance Sheet) when any of the following occurs:

- i. The contractual rights to cash flows from the financial asset expires;
- ii. The Company transfers its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risks and rewards of ownership of the financial asset;
- iii. The Company retains the contractual rights to receive cash flows but assumes a contractual obligation to pay the cash flows without material delay to one or more recipients under a 'pass-through' arrangement (thereby substantially transferring all the risks and rewards of ownership of the financial asset);
- iv. The Company neither transfers nor retains substantially all risk and rewards of ownership and does not retain control over the financial asset.

In cases where the Company has neither transferred nor retained substantially all of the risks and rewards of the financial asset, but retains control of the financial asset, the Company continues to recognize such financial asset to the extent of its continuing involvement in the financial asset. In that case, the Company also recognizes an associated liability.

The financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

## **Inox Wind Infrastructure Services Limited**

### **Notes to the standalone financial statements for the year ended 31 March 2020**

#### **e) Impairment of financial assets:**

The Company applies expected credit losses (ECL) model for measurement and recognition of loss allowance on the following:

- i. Trade receivables
- ii. Financial assets measured at amortized cost (other than trade receivables)
- iii. Financial assets measured at fair value through other comprehensive income (FVTOCI)

In case of trade receivables, the Company follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognized as loss allowance.

In case of other assets (listed as ii and iii above), the Company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance.

Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on 12-month ECL.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the company expects to receive (i.e., all cash shortfalls), discounted at the original effective interest rate.

12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset.

ECL are measured in a manner that they reflect unbiased and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

As a practical expedient, the Company uses a provision matrix to measure lifetime ECL on its portfolio of trade receivables. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward-looking estimates. At each reporting date, the historically observed default rates and changes in the forward-looking estimates are updated.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as expense/income in the Statement of Profit and Loss under the head 'Other expenses'/'Other income'

#### **B) Financial liabilities and equity instruments**

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

##### **i. Equity instruments:-**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the entity are recognised at the proceeds received, net of direct issue costs.

## **Inox Wind Infrastructure Services Limited**

### **Notes to the standalone financial statements for the year ended 31 March 2020**

Repurchase of the entity's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

#### **ii. Compound financial instruments:-**

Compound financial instruments issued by the Company comprise of convertible debentures denominated in INR that can be converted to equity shares at the option of the holder. The debentures will be converted into equity shares at the fair value on the date of conversion.

The fair value of the liability component of a compound financial instrument is determined using a market interest rate of a similar liability that does not have an equity conversion option. This value is recorded as a liability on an amortised cost basis until extinguished on conversion or redemption of the debentures. The remainder of the proceeds is attributable to equity portion of the instrument net of derivatives if any. The equity component is recognised and included in shareholder's equity (net of deferred tax) and is not subsequently re-measured. The derivative component is recognized at fair value and subsequently carried at fair value through profit or loss.

Interest related to the financial liability is recognized in profit or loss (unless it qualifies for inclusion in the cost of an asset). In case of conversion at maturity, the financial liability is reclassified to equity and no gain or loss is recognized.

#### **iii. Financial Liabilities:-**

##### **a) Initial recognition and measurement :**

Financial liabilities are recognised when a Company member becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the fair value.

##### **b) Subsequent measurement:**

Financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

The Company has not designated any financial liability as at FVTPL other than derivative instrument.

##### **c) Derecognition of financial liabilities:**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid is recognized in the Statement of Profit and Loss.

#### **3.14 Earnings Per Share**

Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

**Notes to the standalone financial statements for the year ended 31 March 2020**

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares, except where the results would be anti-dilutive.

**4 Critical accounting judgements and use of estimates**

In application of Company's accounting policies, which are described in Note 3, the Directors of the Company are required to make judgements, estimations and assumptions about the carrying value of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of revision or future periods if the revision affects both current and future periods.

4.1 Following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

**a) Useful lives of Property, Plant & Equipment (PPE) & intangible assets:**

The Company has adopted useful lives of PPE as described in Note 3.8 & 3.9 above. The Company reviews the estimated useful lives of PPE & intangible assets at the end of each reporting period.

**b) Fair value measurements and valuation processes**

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above.

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgements and assumptions. Where necessary, the Company engages third party qualified valuers to perform the valuation.

Information about the valuation techniques and inputs used in determining the fair values of various assets and liabilities are disclosed in Note 37.

**c) Other assumptions and estimation uncertainties, included in respective notes are as under:**

- Recognition of deferred tax assets is based on estimates of taxable profits in future years. The Company prepares detailed cash flow and profitability projections, which are reviewed by the board of directors of the Company. Estimation of current tax expense and payable, recognition of deferred tax assets, availability of future taxable profits against which tax losses carried forward can be used, possibility of utilizing available tax credits – see Note 34
- Measurement of defined benefit obligations and other long-term employee benefits: key actuarial assumptions – see Note 38

**Inox Wind Infrastructure Services Limited**

**Notes to the standalone financial statements for the year ended 31 March 2020**

- Assessment of the status of various legal cases/claims and other disputes where the Company does not expect any material outflow of resources and hence these are reflected as contingent liabilities. Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources – see Note 43
- Impairment of financial assets – see Note 37

\*The Company has sold its investment in Sri Pavan Energy Limited on 22 May 2020 at a consideration of Rs. 5.10 Lakhs.

\*\*The Company has neither right to variable returns from its investment with the investee nor the ability to affect those returns through its power over the investee.

#The Company has entered into various binding agreements (including call & put option agreement and voting rights agreement) with a party to, *inter-alia*, transfer the shares of such companies at a future date and defining rights of the respective parties. In view of the provisions of these binding agreements, it is assessed that the Company has ceased to exercise control over such companies in terms of Ind AS 110: Consolidated Financial Statements. Therefore, the Company has accounted for investment in such companies as investment in 'associate' from the date of cessation of control.

The Company has recognised deferred tax assets on its unabsorbed depreciation and business losses carried forward. The Company has executed long term operation & maintenance contracts with the customers. Revenue in respect of such contracts will get recognised in future years as per the accounting policy of the Company. Based on these contracts, the Company has reasonable certainty as on the date of the balance sheet, that there will be sufficient taxable income available to realize such assets in the near future. Accordingly, the Company has created deferred tax assets on its carried forward unabsorbed depreciation and business losses.

**INOX WIND INFRASTRUCTURE SERVICES LIMITED****Notes to the standalone financial statements for the year ended 31 March 2020****36. Capital Management**

For the purpose of the Company's capital Management, capital includes issued equity share capital, security premium and all other equity reserves attributable to the equity holders of the Company.

The Company's capital Management objectives are:

- to ensure the Company's ability to continue as a going concern
- to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total equity. The Company includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents, excluding discontinued operations, if any.

The gearing ratio at the end of the reporting period was as follows:

Particulars	(Rs. in Lakhs)	
	As at 31 March 2020	As at 31 March 2019
Non-current borrowings	30,242.67	52,628.53
Current maturities of long term debt	28,375.98	23,811.21
Current borrowings	47,405.02	36,652.84
Interest accrued but not due on borrowings		
Interest accrued and due on borrowings	4,818.21	2,919.48
Total debt	1,10,841.88	1,16,012.06
Less: Cash and bank balances (excluding bank deposits kept as lien)	267.99	29.71
<b>Net debt</b>	<b>1,10,573.89</b>	<b>1,15,982.35</b>
Total Equity	7,942.27	3,713.76
<b>Net debt to equity ratio</b>	<b>1392.22%</b>	<b>3123.04%</b>

In order to achieve this overall objective, the Company's capital Management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March, 2020 and 31 March, 2019.

### 37. Financial Instrument

#### (i) Categories of financial instruments

(Rs. in Lakhs)

	As at 31 March 2020	As at 31 March 2019
<b>(a) Financial assets</b>		
<b>Measured at amortised cost</b>		
(a) Cash and bank balances	1,514.91	572.03
(b) Trade receivables	25,886.09	19,306.33
(c) Loans	3,986.16	3,829.38
(d) Other financial assets	43,996.93	37,677.89
<b>Sub total</b>	<b>75,384.09</b>	<b>61,385.63</b>
<b>Measured at fair value through profit or loss (FVTPL)</b>		
(a) Investment in mutual funds	285.48	133.66
<b>Sub total</b>	<b>285.48</b>	<b>133.66</b>
<b>Total Financial Assets</b>	<b>75,669.57</b>	<b>61,519.29</b>
<b>(b) Financial liabilities</b>		
<b>Measured at fair value through profit or loss (FVTPL)</b>		
Other non current derivative financial liabilities	1,175.97	1,517.12
<b>Measured at amortised cost</b>		
(a) Borrowings	1,10,841.88	1,16,012.06
(b) Trade payables	41,415.89	38,399.38
(c) Other financial liabilities	30,725.01	3,796.53
	<b>1,82,982.78</b>	<b>1,58,207.97</b>
<b>Total</b>	<b>1,84,158.75</b>	<b>1,59,725.09</b>

The carrying amount reflected above represents the Company's maximum exposure to credit risk for such financial assets.

#### (ii) Financial risk management

The Company's principal financial liabilities comprise of borrowings from its holding company, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets includes trade and other receivables, cash and bank balances, derived directly from its operations. The Company is exposed to market risk, credit risk and liquidity risk.

#### (iii) Market Risk

Market risk is that the fair value of future cash flows of a financial instrument will fluctuate because of change in market price. The Company does not have any foreign currency exposure and hence is not subject to foreign currency risks. Further, the Company does not have any investments other than strategic investments in subsidiaries and hence is not subject to other price risks.

**Notes to the standalone financial statements for the year ended 31 March 2020**

### **(iv) Interest rate risk management**

Interest rate risk refers to the possibility that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rate. The Company is exposed to interest rate risk because it borrows funds at both fixed and floating interest rates. The risk is managed by the Company by maintaining an appropriate mix between fixed and floating rate borrowings.

#### **Interest rate sensitivity analysis**

The sensitivity analysis below have been determined based on the exposure to interest rates for floating rate liabilities at the end of the reporting period. For floating rate liabilities, a 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Company's profit for the year ended 31 March 2020 would decrease/increase by INR 53.24 Lakhs net of tax. This is mainly attributable to the Company's exposure to interest rates on its variable rate borrowings.

### **(v) Other price risks**

The Company is exposed to equity price risks arising from equity investments, other than investments in subsidiaries and associates which are held for strategic rather than trading purposes. The Company does not actively trade these investments. Hence the Company's exposure to equity price risk is minimal.

### **(vi) Credit risk management**

Credit risk refers to risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk arises primarily from financial assets such as trade receivables, other balances with banks, loans and other receivables.

#### **a) Trade receivables**

Credit risk arising from trade receivables is managed in accordance with the Company's established policy, procedures and control relating to customer credit risk management. The Company is providing O&M services and is having long term contracts with such customers. Accordingly, risk of recovery of such amounts is mitigated. Customers who represents more than 5% of the total balance of Trade Receivable as at 31 March, 2020 is Rs. 14,301.60 lakhs (as at 31 March, 2019 of Rs. 8,768.64 lakhs) are due from 6 major customers (Previous year 5 major customer) who are reputed parties. All trade receivables are reviewed and assessed for default at each reporting period.

For trade receivables, as a practical expedient, the Company computes credit loss allowance based on a provision matrix. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward-looking estimates. The provision matrix at the end of the reporting period is as follows and during the year the Company has changed the provision matrix considering the long term outstanding and credit risk.

**INOX WIND INFRASTRUCTURE SERVICES LIMITED**

Notes to the standalone financial statements for the year ended 31 March 2020

Ageing	Expected credit loss (%)
	2019-2020
0-1 Year	1%
1-2 Year	5%
2-3 Year	10%
3-5 Year	15%
Above 5 Year	100%

	2018-2019
	0-180 days
181-365 days	0.50%
Above 365 days	1.50%

(Rs in Lakhs)

Particulars	As at 31 March 2020

Above 365 days	16,127.64
<b>Gross trade receivables</b>	<b>19,553.35</b>

**INOX WIND INFRASTRUCTURE SERVICES LIMITED**

Notes to the standalone financial statements for the year ended 31 March 2020

**Movement in the expected credit loss allowance :**

Particulars	(Rs. in Lakhs)	
	2019-2020	2018-2019
Balance at beginning of the year	247.03	140.22
Movement in expected credit loss allowance	2,047.91	106.81
Balance at end of the year	2,294.94	247.03

**b) Loans and Other Receivables**

The Company applies expected credit losses (ECL) model for measurement and recognition of loss allowance on the loans given by the Company to the external parties. ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e., all cash shortfalls), discounted at the original effective interest rate.

The Company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance.

12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset.

ECL are measured in a manner that they reflect unbiased and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/expense in the Statement of Profit and Loss under the head 'Other expenses'.

**c) Other financial assets**

Credit risk arising from other balances with banks is limited because the counterparties are banks. There is no collateral held against such investments.

**(vii) Liquidity Risk Management**

Ultimate responsibility for liquidity risk management rests with the committee of board of directors of the Company and its holding company, which has established an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

**INOX WIND INFRASTRUCTURE SERVICES LIMITED****Notes to the standalone financial statements for the year ended 31 March 2020****(viii) Liquidity risk tables**

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

**a) Non-Derivative Financial Liabilities**

The table below provides details regarding the contractual maturities of financial liabilities including estimated interest payments as at 31 March 2020:

Particulars	(Rs. in Lakhs)			
	Less than 1 year	1 to 5 year	5 years and above	Total
<b>As at 31 March 2020</b>				
Borrowings	75,781.00	30,242.67	-	1,06,023.67
Trade payables	41,415.89	-	-	41,415.89
Other financial liabilities	35,543.22	-	-	35,543.22
Derivative financial liabilities	-	1,175.97	-	1,175.97
<b>Total</b>	<b>1,52,740.11</b>	<b>31,418.64</b>	<b>-</b>	<b>1,84,158.75</b>

The table below provides details regarding the contractual maturities of financial liabilities including estimated interest payments as at 31 March 2019:

Particulars	(Rs. in Lakhs)			
	Less than 1 year	1 to 5 year	5 years and above	Total
<b>As at 31 March 2019</b>				
Borrowings	60,464.05	52,628.53	-	1,13,092.58
Trade payables	38,399.38	-	-	38,399.38
Other financial liabilities	6,716.01	-	-	6,716.01
Derivative financial liabilities	-	1,517.12	-	1,517.12
<b>Total</b>	<b>1,05,579.44</b>	<b>54,145.65</b>	<b>-</b>	<b>1,59,725.09</b>

**INOX WIND INFRASTRUCTURE SERVICES LIMITED**

Notes to the standalone financial statements for the year ended 31 March 2020

**37. Financial Instrument**

(ix) Fair Value of the Company's financial assets and financial liabilities that are measured at fair value on a recurring basis:

Financial assets/(Financial liabilities)	Fair Value as at		Fair Value Hierarchy	Valuation Technique(s) & key inputs used	Significant unobservable input(s)	Relationship of unobservable inputs to fair value
	31 March 2020	31 March 2019				
(a) Optionally convertible debentures (See Note 21)	(1,175.97)	(1,517.12)	Level 2	Discounted cash flow. Future cash flows are estimated based on forward exchange rates (from observable yield curves at the end of the reporting period) and contract interest rates, discounted at a rate that reflects the credit risk of various counterparties.	NA	NA
(b) Investment in Mutual Fund (see note 7C)	285.48	133.66	Level 2	The use of net asset value (NAV) for the mutual fund on the basis of the statement received from the investee party.	NA	NA

(Rs. in Lakhs)

During the period, there were no transfers between Level 1 and level 2

(ix) Fair value of financial assets and financial liabilities that are not measured at fair value (but fair value disclosures are required)

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

**INOX WIND INFRASTRUCTURE SERVICES LIMITED**

Notes to the standalone financial statements for the year ended 31 March 2020

**38. Employee benefits:****(a) Defined Contribution Plans**

The Company contributes to the Government managed provident and pension fund for all qualifying employees.

Contribution to provident fund of Rs 85.13 Lakhs (previous year Rs 92.90 Lakhs) is recognized as an expense and included in "Contribution to provident and other funds" in Statement of Profit and Loss.

**(b) Defined Benefit Plans:**

The Company has defined benefit plan for payment of gratuity to all qualifying employees. It is governed by the Payment of Gratuity Act, 1972. Under this Act, an employee who has completed five years of service is entitled to the specified benefit. The level of benefits provided depends on the employee's length of service and salary at retirement age. The Company's defined benefit plan is unfunded.

There are no other post retirement benefits provided by the Company.

The most recent actuarial valuation of the present value of the defined benefit obligation were carried out as at 31 March 2020 by Mr.G. N. Agarwal, Fellow of the Institute of the Actuaries of India. The present value of the defined benefit obligation, the related current service cost and past service cost, were measured using the projected unit credit method.

(Rs. in Lakhs)

Movement in the present value of the defined benefit obligation are as follows :	Gratuity	
	31 March 2020	31 March 2019
Opening defined benefit obligation	125.05	150.98
Interest cost	9.37	10.89
Current service cost	47.62	64.52
Benefits paid	(11.53)	(12.64)
Actuarial (gain) / loss on obligations	(32.88)	(88.70)
Present value of obligation as at the year end	137.63	125.05

Components of amounts recognised in profit or loss and other comprehensive income are as under:

(Rs. in Lakhs)

Gratuity	31 March 2020	31 March 2019
Current service cost	47.62	64.52
Interest cost	9.37	10.89
Amount recognised in profit or loss	56.99	75.41
Actuarial (gain)/loss		
a) arising from changes in financial assumptions	14.00	(1.27)
b) arising from experience adjustments	(46.88)	(87.43)
Amount recognised in other comprehensive income	(32.88)	(88.70)
Total	24.11	(13.29)

**INOX WIND INFRASTRUCTURE SERVICES LIMITED**

Notes to the standalone financial statements for the year ended 31 March 2020

**38. Employee benefits:**

The principal assumptions used for the purposes of the actuarial valuations of gratuity are as follows:

Particulars	31 March 2020	31 March 2019
Discount rate (per annum)	6.66%	7.61%
Expected rate of salary increase	8.00%	8.00%
Employee attrition rate	5%	5%
Mortality	IALM(2006-08)Ultimate Mortality Table	

Estimates of future salary increases considered in actuarial valuation take account of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

These plans typically expose the Company to actuarial risks such as interest rate risk and salary risk.

- a) Interest risk: a decrease in the bond interest rate will increase the plan liability.  
 b) Salary risk: the present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, a variation in the expected rate of salary increase of the plan participants will change the plan liability.

**Sensitivity analysis**

Significant actuarial assumptions for the determination of defined obligation are discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Particulars	Gratuity	
	2019-20	2018-19
Impact on present value of defined benefit obligation:		
If discount rate is increased by 1%	(14.67)	(12.82)
If discount rate is decreased by 1%	17.56	15.28
If salary escalation rate is increased by 1%	16.75	14.70
If salary escalation rate is decreased by 1%	(14.29)	(12.57)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumption would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

**INOX WIND INFRASTRUCTURE SERVICES LIMITED**

Notes to the standalone financial statements for the year ended 31 March 2020

**38. Employee benefits:****Discounted Expected outflow in future years (as provided in actuarial report)**

(Rs. in Lakhs)

Particulars	2019-20	2018-19
	Gratuity	
Expected outflow in 1st Year	4.84	3.72
Expected outflow in 2nd Year	5.47	4.97
Expected outflow in 3rd Year	7.24	6.37
Expected outflow in 4th Year	6.57	7.54
Expected outflow in 5th Year	7.30	16.19
Expected outflow in 6th to 10th Year	70.94	49.31

The average duration of the defined benefit plan obligation at the end of the reporting period is 10.90 years (previous year 10.89 years)

**(c) Other long term employment benefits:****Annual leave & Short term leave**

The liability towards compensated absences (annual and short term leave) for the year ended 31 March 2020 based on actuarial valuation carried out by using projected accrued benefit method resulted in increase in liability by Rs. 2.78 lakhs (31 March 2019: decrease in liability by Rs. 65.61 lakhs), which is included in the employee benefits in the Statement of Profit and Loss.

The principal assumptions used for the purposes of the actuarial valuations of compensated absences are as follows:

Particulars	As at	
	31 March 2020	31 March 2019
Discount rate	6.66%	7.61%
Expected rate of salary increase	8.00%	8.00%
Employee attrition rate	5.00%	5.00%
Mortality rate	IALM(2006-08)Ultimate Mortality Table

**INOX WIND INFRASTRUCTURE SERVICES LIMITED**

Notes to the standalone financial statements for the year ended 31 March 2020

40: Exceptional items	Particulars	(Rs. in Lakhs)	
		2019-20	2018-19
	Provision for diminution in value of investment in a subsidiary	940.67	-
	Provision for doubtful inter-corporate deposit to a subsidiary	975.07	1,747.68
	<b>Total</b>	<b>1,915.74</b>	<b>1,747.68</b>

The management has reviewed the carrying amount of investment in, and inter-corporate deposits given to, subsidiaries. After considering the position of losses of subsidiaries and balance wind farm sites available for sale, provision is made for diminution in the value of investment and for doubtful inter-corporate deposits to the extent of accumulated losses of subsidiaries.

**41: Balance Confirmation**

The Company has a system of obtaining periodic confirmation of balances from banks, trade receivables/payables and other parties. The balance confirmation letters as referred in the Standard on Auditing (SA) 505 (Revised) 'External Confirmations', were sent to banks and parties and certain parties' balances are subject to confirmation/reconciliation. Adjustments, if any will be accounted for on confirmation/reconciliation of the same, which in the opinion of the management will not have a material impact.

**42: Particulars of payment to Auditors**

Particulars	(Rs. in Lakhs)	
	2019-20	2018-19
Statutory audit	8.25	4.00
Tax audit and other audits under Income-tax Act	2.50	1.75
Taxation matters	-	-
Certification fees	0.93	-
<b>Total</b>	<b>11.68</b>	<b>5.75</b>

**43: Contingent liabilities**

(a) Claims against the Company not acknowledged as debts: claims made by contractors - Rs. 5,450.36 lakhs (as at 31 March 2019: Rs. 3,578.36 lakhs)

Some of the suppliers have raised claims including interest on account of non payment in terms of the respective contracts. The Company has contended that the suppliers have not adhered to some of the contract terms. At present the matters are pending before the jurisdictional authorities or are under negotiations.

b) In respect of claims made by three customers for non-commissioning of WTGs, the amount is not ascertainable.

c) Claim made by customer not acknowledged as debts Rs. 3,132.00 lakhs (as at 31 March 2019 : NIL ).

d) Claims made by vendors in National Company Law Tribunal (NCLT) for Rs. 622.04 Lakhs.

In respect of above matters, no additional provision is considered necessary as the Company expects favourable outcome. Further, it is not possible for the Company to estimate the timing and amounts of further cash outflows, if any, in respect of these matters.

Due to unascertainable outcome for pending litigation matters with Court/Appellate Authorities, the Company's management expects no material adjustments on the standalone financial statements.

#### 44: Capital & other Commitments

##### Capital Commitments

(a) Estimated amounts of contracts remaining to be executed on capital account and not provided for (net of advances) is Rs. 6,391.80 Lakhs, (31 March 2019: Rs. 3,701.48 Lakhs).

##### Other Commitments

(b) Bank Guarantee issued by the Company to its customer for Rs. 6,817.00 Lakh (as at 31 March 2019 is Rs.10,000 Lakh)

#### 45: Leases

The Company has adopted Ind AS 116 "Leases" effective from April 01, 2019 and considered all material leases contracts existing on 01 April 2019. The Company neither have any existing material lease contract as on 01 April 2019 nor executed during the year. The adoption of the standard does not have any impact on the financial statement of the company. Following are the details of lease contracts which are short term in nature:

<b>i. Amount recognized in statement of profit and loss</b>		<b>(Rs.in Lakhs)</b>
<b>Particulars</b>	<b>As at</b>	<b>31-March-2020</b>
Included in rent expenses: Expense relating to short-term leases		327.23

<b>ii. Amounts recognised in the statement of cash flows</b>		<b>(Rs.in Lakhs)</b>
<b>Particulars</b>	<b>As at</b>	<b>31-March-2020</b>
Total cash outflow for leases		327.23

#### 46: Segment Information

Information reported to the chief operating decision maker (CODM) for the purpose of resource allocation and segment performance focuses on single business segment of Erection, Procurement & Commissioning ("EPC"), Operations & Maintenance ("O&M") and Common Infrastructure Facilities services for WTGs, and development of wind farm and hence there is only one reportable business segment in terms of Ind AS 108: Operating Segment.

Four customers (previous year 1 customer) contributed out of total revenue more than 10% of the total revenue amounting to Rs. 18,827.56 lakhs (31 March 2019: is Rs. 4,117.23 lakhs).

#### 47. Revenue from contracts with customers as per Ind As 115

##### (A) Disaggregated revenue information

In the following table, revenue from contracts with customers is disaggregated by primary major products and service lines. Since the Company has only one reportable business segment, no reconciliation of the disaggregated revenue is required:

##### Reportable segment/Manufacture of Wind Turbine

<b>Particulars</b>	<b>(Rs. In Lakhs)</b>	
	<b>2019-2020</b>	<b>2018-2019</b>
<b>Major Product/ Service Lines</b>		
Sale of goods	-	-
Sale of services	39,653.03	21,465.77
Others	304.64	54.98
<b>Total</b>	<b>39,957.67</b>	<b>21,520.75</b>

##### (B) Contract balances

All the Trade Receivables and Contract Liabilities have been separately presented in notes to accounts.

## **INOX WIND INFRASTRUCTURE SERVICES LIMITED**

**Notes to the standalone financial statements for the year ended 31 March 2020**

### **48: Impact of Covid-19**

Due to outbreak of COVID-19 globally and in India, the Company's management has made initial assessment of impact on business and financial risks on account of COVID-19. Considering that the Company is in the business of Erection, procurement and operation & maintenance services of Wind Turbine Generator in Renewable Energy Sector, the management believes that the impact of this outbreak on the business and financial position of the Company will not be significant. The management does not see any risks in the Company's ability to continue as a going concern and meeting its liabilities as and when they fall due. The Company has used the principles of prudence in applying judgments, estimates and assumptions and based on the current estimates, the Company expects to recover the carrying amount of trade receivables including unbilled receivables, investments, inventories and other assets. The eventual outcome of impact of the global health pandemic may be different from those estimated as on the date of approval of these financial statements.

**49:** The Company has policy to recognise revenue from operations & maintenance (O&M) over the period of the contract on a straight-line basis. The Company has recognised revenue amounting to Rs. 1,189.87 Lakhs related to O&M contract signed during the year due to uncertainty of realization in earlier periods. Further O&M agreement of 303 WTGs has been cancelled with different customers and the Company's management expects no material adjustments on the Financial Statements since all the common infrastructure O&M remains with the Company.

### **50: Note on Advance received from customers**

During the year, the Company has signed supply contracts for 125.4 MW Wind power projects of 38 Nos of 3300 KW WTG (Model WT3000DF) in the State of Gujarat with Gujarat Fluorochemicals Limited (GFCL). The company has received the interest bearing advance of Rs. 16,678.20 Lakhs against the contracts. The Company is in process of fulfilment of the terms and conditions of the contracts.

**51:** The Company has work-in-progress inventory amounting Rs.12,794.29 Lakh for project development, erection & commissioning work and Common infrastructure facilities in different states. The respective State Governments are yet to announce the policy on Wind Farm Development. In the view of the management, the Company will be able to realise the Inventory on execution of projects once Wind Farm Development policy is announced by respective State Governments.

**52:** The Company has a comprehensive system of maintenance of information and documents as required by the Goods and Services Act ("GST Act"). Since the GST Act requires existence of such information and documentation to be contemporaneous in nature, the Company appoints independent GST auditor for conducting GST audit to determine whether the all transactions have been duly recorded and reconciled with the GST Portal. Adjustments, if any, arising from the GST Audit shall be accounted for as and when the audit is completed for the current financial year. However, the management is of the opinion that the aforesaid legislations will not have any impact on the financial statements.

**INOX WIND INFRASTRUCTURE SERVICES LIMITED**

Notes to the standalone financial statements for the year ended 31 March 2020

**53: Corporate Social Responsibilities (CSR)**

(a) The gross amount required to be spent by the Company during the year towards Corporate Social Responsibility (CSR) is Rs. NIL (31 March 2019 is Rs. NIL).

(b) Amount spent during the Year ended 31 March 2020:

Particulars	(Rs. in Lakhs)		
	In Cash	Yet to be paid in cash	Total
(i) Construction/acquisition of any fixed assets	Nil (Nil)	Nil (Nil)	Nil (Nil)
(ii) On purpose other than (i) above - Donations	Nil (Nil)	Nil (Nil)	Nil (Nil)

(Figures in brackets pertain to 31 March 2019)

54: There have been no delays in transferring amounts required to be transferred to the Investor Education and Protection Fund.

**55: Events after the Reporting period**

There are no events observed after the reported period which have an impact on the Company operations.

## INDEPENDENT AUDITOR'S REPORT

To the Members of Inox Wind Infrastructure Service Limited

Report on the Audit of the Consolidated Financial Statements

### Opinion

We have audited the accompanying Consolidated Financial Statements of Inox Wind Infrastructure Service Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), and its associates which comprise the consolidated Balance Sheet as at March 31, 2020, and the consolidated statement of Profit and Loss, the consolidated statement of changes in equity and the consolidated cash flows Statement for the year then ended, and notes to the Consolidated Financial Statements, including a summary of significant accounting policies (hereinafter referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of their consolidated state of affairs of the Group as at March 31, 2020, of consolidated loss, consolidated changes in equity and its consolidated cash flows for the year then ended.

### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by ICAI, and we have fulfilled our other ethical responsibilities in accordance with the provisions of the Companies Act, 2013. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The Key audit Matters	How our audit addressed the key audit matter
<b>Allowance for credit losses</b> The Group determines the allowance for credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. The Group considered current and anticipated future economic conditions relating to industries the Group deals with and the countries where it operates. In calculating expected credit loss, the Group has	Our audit procedures related to the allowance for credit losses for trade receivables and unbilled revenue include the following, among others:  We tested the effectiveness of controls over the (I) development of the methodology for the allowance for credit losses, including

<p><b>Litigation Matters</b></p>	
<p>The Group has certain significant pending legal proceedings with Judicial/Quasi-Judicial for various complex matters with contractor/transporter, customer and other parties, continuing from earlier years.</p> <p>Further, the Group has material uncertain tax positions including matters under dispute which involves significant judgment to determine the possible outcome of these disputes.</p> <p>Refer Note 40 of the Consolidated Financial Statements.</p> <p>Due to complexity involved in these litigation matters, management's judgement regarding recognition and measurement of provisions for these legal proceedings is inherently uncertain and might change over time as the outcomes of the legal cases are determined. Accordingly, it has been considered as a key audit matter.</p>	<ul style="list-style-type: none"> <li>➤ Assessed the management's position through discussions with the in-house legal expert and external legal opinions obtained by the Group (where considered necessary) on both, the probability of success in the aforesaid cases, and the magnitude of any potential loss.</li> <li>➤ Discussed with the management on the development in these litigations during the year ended March 31, 2020.</li> <li>➤ Rolled out of enquiry letters to the Group's legal counsel and noted the responses received.</li> <li>➤ Assessed the responses received from Group's legal counsel by engaging legal experts.</li> <li>➤ Assessed the objectivity, independence and competence of the Group's legal counsel involved in the process and legal experts engaged by us.</li> <li>➤ Reviewed the disclosures made by the Group in the Standalone Financial Statements in this regard.</li> </ul>

**Emphasis of Matter**

We draw attention to Note 49 of the Consolidated Financial Statement which describes the management's assessment of the impact of the outbreak of Covid-19 on revenue, trade receivables, investments and other assets. The management believes that no adjustments are required in the financial statements as there is no impact in the current financial year. However, in view of highly

uncertain economic environment and its likely effect on future revenues due to Covid-19, a definitive assessment of the impact on the subsequent periods is dependent upon circumstances as they evolve.

Our report is not modified in respect of above matter.

#### **Information Other than the Consolidated Financial Statements and Auditor's Report Thereon**

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information (hereinafter referred as "the Reports"), but does not include the Consolidated Financial Statements and our auditor's report thereon. The Reports is expected to be made available to us after the date of this auditor's report.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

#### **Responsibilities of Management and those Charged with Governance for the Consolidated Financial Statements**

The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Financial Statements in term of the requirements of the Companies Act, 2013 that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group including and its Associates in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Holding Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Board of Directors of the companies included in the Group and of its associates are responsible for assessing the ability of the Group and of its associates to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates are responsible for overseeing the financial reporting process of the Group and of its associates.

#### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement

when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Group and its associates has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period

and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Other Matters

- (a) We did not audit the financial statement of one subsidiary, whose financial statement reflect total assets of Rs. 3.27 Lakhs as at 31st March, 2020, total revenue of Rs. Nil and net cash flows amounting to Rs. 2.77 Lakhs for the year ended 31st March 2020, as considered in the consolidated financial statement. These financial statements are unaudited and have been furnished to us by the Management and our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary and our report in terms of sub-sections (3) and (11) of Section 143 of the Act in so far as it relates to the aforesaid subsidiary is based solely on such unaudited financial statements. In our opinion and according to the information and explanations given to us by the Management, these financial statements are not material to the Group.

Our opinion on the Consolidated Financial Statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the financial statements / financial information certified by the Management.

- (b) Due to the COVID-19 related lockdown, we were unable to observe the management's year-end physical verification of inventory at respective locations. We have therefore, relied on the related alternative audit procedures to obtain comfort over the existence and condition of inventory at year end.  
Our report is not modified in respect of above matters.

#### Report on Other Legal and Regulatory Requirements

1. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:  
In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Holding Company to its directors during the year is in accordance with the provisions of section 197 of the Act
2. As required by Section 143(3) of the Act, [based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of associates, as noted in the other matters paragraph, we report, to the extent applicable, that:
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.
  - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
  - (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Financial Statements.

- (d) In our opinion, the aforesaid Consolidated Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 2020 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies, and associate companies incorporated in India, none of the directors of the Group companies and its associate companies is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of internal financial controls over financial reporting of the Holding Company, its subsidiary companies and associates companies incorporated in India and the operating effectiveness of such controls, refer to our separate report in Annexure A.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of associates, as noted in the Other matters paragraph
- i. The Consolidated Financial Statements disclose the impact of pending litigations on the consolidated financial position of the Group and its associates- Refer Note 40 to the Consolidated Financial Statements.
  - ii. Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts in respect of such items as it relates to the Group (Refer Note 37 to the consolidated financial statements)
  - iii There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiary companies and associate companies incorporated in India.

**ANNEXURE – “A” TO THE INDEPENDENT AUDITOR’S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF INOX WIND INFRASTRUCTURE SERVICE LIMITED**

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

In conjunction with our audit of the Consolidated Financial Statements of the Group as of and for the year ended March 31, 2020, We have audited the internal financial controls over financial reporting of Inox Wind Infrastructure Service Limited (hereinafter referred to as “the Holding Company”) and its subsidiary companies and its associate companies, which are companies incorporated in India, as of that date.

**Management’s Responsibility for Internal Financial Controls**

The respective Board of Directors of the Holding company, its subsidiary companies and its associate companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditors’ Responsibility**

Our responsibility is to express an opinion on the Group’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Group’s internal financial controls system over financial reporting.

**Meaning of Internal Financial Controls over Financial Reporting**

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial

statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Group; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Group are being made only in accordance with authorisations of management and directors of the Group; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Group's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion, the Holding Company, its subsidiary companies and its associate companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI

#### **Other Matters**

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to four associate, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

## **Inox Wind Infrastructure Services Limited**

### **Notes to the consolidated financial statements for the year ended 31 March 2020**

#### **1. Group information**

Inox Wind Infrastructure Services Limited ("the Company") is a public limited company incorporated in India. These Consolidated Financial Statements ("these CFS") relate to the Company and its subsidiaries (collectively referred to as the "Group") and the Group's interest in associates. The Group is engaged in the business of providing Erection, Procurement and Commissioning ("EPC") services, Operations and Maintenance ("O&M") services, wind farm development services and Common Infrastructure Facilities for WTGs. The Company's parent company is Inox Wind Limited which is a subsidiary of GFL Limited and its ultimate holding company is Inox Leasing and Finance Limited. The area of operations of the Group is within India.

The Company's registered office is located at Survey No. 1837 & 1834 ABS Tower, 2<sup>nd</sup> Floor, Old Padra Road, Vadodara- 390007, Gujarat, India.

#### **2. Statement of compliance and basis of preparation and presentation**

##### **2.1 Statement of Compliance**

These CFS comply in all material aspects with the Indian Accounting Standards ("Ind AS") notified under section 133 of the Companies Act, 2013 ("the Act") and other relevant provisions of the Act.

##### **2.2 Basis of Measurement**

These CFS are presented in Indian Rupees (INR), which is also the Group's functional currency. All amounts have been rounded-off to the nearest lakhs, unless otherwise indicated.

These CFS have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the significant accounting policies.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these CFS is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

##### **2.3 Basis of Preparation and Presentation**

Accounting policies have been consistently applied except where a newly issued accounting standard initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

## **Inox Wind Infrastructure Services Limited**

### **Notes to the consolidated financial statements for the year ended 31 March 2020**

These CFS have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements.

Any asset or liability is classified as current if it satisfies any of the following conditions:

- the asset/liability is expected to be realized/settled in the Group's normal operating cycle;
- the asset is intended for sale or consumption;
- the asset/liability is held primarily for the purpose of trading;
- the asset/liability is expected to be realized/settled within twelve months after the reporting period
- the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- in the case of a liability, the Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current.

For the purpose of current/non-current classification of assets and liabilities, the Group has ascertained its normal operating cycle as twelve months. This is based on the nature of products and services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

These CFS were authorized for issue by the Company's Board of Directors on 27 June 2020.

### **3. Basis of Consolidation and Significant Accounting Policies**

#### **3.1 Basis of consolidation**

These CFS incorporate the financial statements of the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit and loss from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of the subsidiaries of the Group to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses, and cash flows relating to transactions between subsidiaries of the Group are eliminated in full on consolidation.

#### **3.1.1 Changes in the Group's ownership interests in existing subsidiaries**

## Inox Wind Infrastructure Services Limited

### Notes to the consolidated financial statements for the year ended 31 March 2020

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interest and the non-controlling interests are adjusted to reflect the changes in their relative interest in the subsidiaries. Any difference between the amount that the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

When the Group loses control of a subsidiary, gain or loss is recognised in profit or loss and is calculated as a difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable Ind AS). The fair value of any investment retained in the former subsidiary at the date when the control is lost is regarded as the fair value on initial recognition for subsequent accounting under Ind AS 109, or, when applicable, the cost on initial recognition of an investment in an associate.

### 3.2 Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange of control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Taxes and Ind AS 19 Employee Benefits respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 Share-based Payment at the acquisition date; and
- assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.

In case of a bargain purchase, before recognising a gain in respect thereof, the Group determines whether there exists clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. Thereafter, the Group reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and recognises any additional assets or liabilities that are identified in that reassessment. The Group then reviews the procedures used to measure the amounts that Ind AS requires for the purposes of calculating the bargain purchase. If the gain remains after this reassessment and review, the Group recognises it in other comprehensive income and accumulates the same in equity as capital reserve. This gain is attributed to the acquirer. If there does not exist clear evidence of the underlying reasons for classifying the business combination as a bargain purchase, the Group recognises the gain, after reassessing and reviewing (as described above), directly in equity as capital reserve.

## **Inox Wind Infrastructure Services Limited**

### **Notes to the consolidated financial statements for the year ended 31 March 2020**

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at fair value or, when applicable, on the basis specified in another Ind AS.

When the consideration transferred by the Group in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill or capital reserve, as the case may be. Measurement period adjustments are adjustments that arise from additional information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at fair value at subsequent reporting dates with the corresponding gain or loss being recognised in profit or loss.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to its acquisition-date fair value and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see above), or additional assets or liabilities are recognised to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

### **3.3 Goodwill**

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business (see Note 3.2 above) less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

### **3.4 Investment in associates**

## **Inox Wind Infrastructure Services Limited**

### **Notes to the consolidated financial statements for the year ended 31 March 2020**

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in these CFS using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with Ind AS 105. Under the equity method, an investment in an associate is initially recognised in the consolidated balance sheet at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate. Distributions received from an associate reduce the carrying amount of the investment. When the Group's share of losses of an associate exceeds the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised directly in equity as capital reserve in the period in which the investment is acquired.

After application of the equity method of accounting, the Group determines whether there is any objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the net investment in an associate and that event (or events) has an impact on the estimated future cash flows from the net investment that can be reliably estimated. If there exists such an objective evidence of impairment, then it is necessary to recognise impairment loss with respect to the Group's investment in an associate.

When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with Ind AS 36 Impairment of Assets as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with Ind AS 36 to the extent that the recoverable amount of the investment subsequently increases.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate, or when the investment is classified as held for sale. When the Group retains an interest in the former associate and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with Ind AS 109. The difference between the carrying amount of the associate at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in associate is included in the determination of the gain or loss on disposal of the associate. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the equity method is discontinued.

The Group continues to use the equity method when an investment in an associate becomes an investment in joint venture. There is no remeasurement to fair value upon such changes in ownership interests. When the Group reduces its ownership interest in an associate but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in

## **Inox Wind Infrastructure Services Limited**

### **Notes to the consolidated financial statements for the year ended 31 March 2020**

other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

When a Group company transacts with an associate of the Group, unrealised gains and losses resulting from such transactions are eliminated to the extent of the interest in the associate.

#### **3.5 Revenue recognition**

Effective April 1, 2018, the Company has applied Ind AS 115 which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised. Ind AS 115 replaces Ind AS 18 Revenue and Ind AS 11 Construction Contracts. The Company has adopted Ind AS 115 using the cumulative effect method. The effect of initially applying this standard is recognised at the date of initial application (i.e. April 1, 2018). The standard is applied retrospectively only to contracts that are not completed as at the date of initial application and the comparative information in the statement of profit and loss is not restated – i.e. the comparative information continues to be reported under Ind AS 18 and Ind AS 11. Refer note 3.5 – Significant accounting policies – Revenue recognition in the Annual report of the Company for the year ended March 31, 2018, for the revenue recognition policy as per Ind AS 18 and Ind AS 11. No impact of the adoption of the standard on the financial statements of the Company.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

- Revenue from time and material and job contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions/processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.
- Revenue from the sale of WTGs is recognised at over the time when the significant risks and rewards of the ownership have been transferred to the buyers and there is no continuing effective control over the goods or managerial involvement with the goods. Revenue from sale of WTGs is recognised on supply in terms of the respective contracts. Revenue from sale of power is recognised on the basis of actual units generated and transmitted to the purchaser.
- Revenue from services rendered is recognised in profit or loss in proportion to the stage of completion of transaction at the reporting date and when the costs incurred for the transactions and the costs to complete the transaction can be measured reliably, as under:  
Revenue from EPC is recognised on the basis of stage of completion by reference to surveys of work performed. Revenue from operations and maintenance and common infrastructure facilities contracts is recognised over the period of the contract, on a straight-line basis. Revenue from wind farm development is recognised when the wind farm site is developed and transferred to the customers in terms of the respective contracts.
- Revenue is measured at the fair value of the consideration received or receivable and is recognised when it is probable that the economic benefits associated with the transaction will flow to the Company and the amount of income can be measured reliably. Revenue is net of returns and is reduced for rebates, trade discounts, refunds and other similar allowances. Revenue is net of goods and service tax.
- Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer.
- Revenue also excludes taxes collected from customers. Revenue from subsidiaries is recognised based on transaction price which is at arm's length. Contract assets are recognised when there is excess of revenue earned over billings on contracts.
- Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.
- Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

## Inox Wind Infrastructure Services Limited

### Notes to the consolidated financial statements for the year ended 31 March 2020

- The billing schedules agreed with customers include periodic performance based payments and / or milestone based progress payments. Invoices are payable within contractually agreed credit period.
- In accordance with Ind AS 37, the Company recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.
- Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation, or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

#### Use of significant judgments in revenue recognition

- The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.
- The Company uses judgement to determine an appropriate standalone selling price for a performance obligation. The Company allocates the transaction price to each performance obligation on the basis of the relative standalone selling price of each distinct product or service promised in the contract. Where standalone selling price is not observable, the Company uses the expected cost plus margin approach to allocate the transaction price to each distinct performance obligation.
- The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.
- Revenue for fixed-price contract is recognised using percentage-of-completion method. The Company uses judgement to estimate the future cost-to-completion of the contracts which is used to determine the degree of completion of the performance obligation.
- Contract fulfilment costs are generally expensed as incurred except for certain software licence costs which meet the criteria for capitalisation. Such costs are amortised over the contractual period or useful life of licence whichever is less. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered.

Dividend income is recorded when the right to receive payment is established. Interest income is recognised using the effective interest method.

### 3.6 Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases. The leasing transaction of the Group comprise of only operating leases.

#### 3.6.1 The Group as lessee

Payments made under operating leases are generally recognised in profit or loss on a straight-line basis over the term of the lease unless such payments are structured to increase in line with the expected general inflation to compensate for the lessors' expected inflationary cost increases. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

### 3.7 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are

**Inox Wind Infrastructure Services Limited**  
**Notes to the consolidated financial statements for the year ended 31 March 2020**

added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

### **3.8 Employee benefits**

#### **3.8.1 Retirement benefit costs**

Recognition and measurement of defined contribution plans:

Payments to defined contribution retirement benefit plan viz. government administered provident funds and pension schemes are recognised as an expense when employees have rendered service entitling them to the contributions.

Recognition and measurement of defined benefit plans:

For defined benefit plan, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate to the net defined benefit plan at the start of the reporting period, taking account of any change in the net defined benefit plan during the year as a result of contributions and benefit payments. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- remeasurement

The Group presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the consolidated balance sheet represents the actual deficit or surplus in the Group's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

#### **3.8.2 Short-term and other long-term employee benefits**

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave, bonus etc. in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

## **Inox Wind Infrastructure Services Limited**

### **Notes to the consolidated financial statements for the year ended 31 March 2020**

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date.

#### **3.9 Taxation**

Income tax expense represents the sum of the tax currently payable and deferred tax.

##### **3.9.1 Current tax**

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the consolidated statement of profit and loss because of items of income or expense that are taxable or deductible in other years, items that are never taxable or deductible and tax incentives. The Group's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

##### **3.9.2 Deferred tax**

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which the benefits of the temporary differences can be utilised and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

##### **3.9.3 Presentation of current and deferred tax:**

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

## **Inox Wind Infrastructure Services Limited**

### **Notes to the consolidated financial statements for the year ended 31 March 2020**

The Group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Group has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Group.

#### **3.10 Property, plant and equipment**

An item of property, plant and equipment (PPE) that qualifies as an asset is measured on initial recognition at cost. Following initial recognition PPE are carried at cost, as reduced by accumulated depreciation and impairment losses, if any.

The Group identifies and determines cost of each part of an item of property, plant and equipment separately, if the part has a cost which is significant to the total cost of that item of property, plant and equipment and has useful life that is materially different from that of the remaining item.

Cost comprises of purchase price / cost of construction, including non-refundable taxes or levies and any expenses attributable to bring the PPE to its working condition for its intended use. Project pre-operative expenses and expenditure incurred during construction period are capitalized to various eligible PPE. Borrowing costs directly attributable to acquisition or construction of qualifying PPE are capitalised.

Spare parts, stand-by equipment and servicing equipment that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life. Costs in nature of repairs and maintenance are recognized in the Statement of Profit and Loss as and when incurred.

Cost of assets not ready for intended use, as on the Balance Sheet date, is shown as capital work in progress. Advances given towards acquisition of property, plant and equipment outstanding at each Balance Sheet date are disclosed as Other Non-Current Assets.

Depreciation is recognised so as to write off the cost of PPE (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The useful lives prescribed in Schedule II to the Companies Act, 2013 are considered as the minimum lives. If the management's estimate of the useful life of property, plant and equipment at the time of acquisition of the asset or of the remaining useful life on a subsequent review is shorter than that envisaged in the aforesaid schedule, depreciation is provided at a higher rate based on the management's estimate of the useful life/remaining useful life. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

PPE are depreciated over its estimated useful lives, determined as under:

- Freehold land is not depreciated.
- On other items of PPE, on the basis of useful life as per Part C of Schedule II to the Companies Act, 2013.

The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from its use or disposal. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

## **Inox Wind Infrastructure Services Limited**

### **Notes to the consolidated financial statements for the year ended 31 March 2020**

#### **3.11 Intangible assets**

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Intangible assets acquired in a business combination and recognised separately from goodwill are initially recognised at their fair value at the acquisition date (which is regarded as their cost). Subsequent to initial recognition, intangible assets acquired in a business combination are reported at cost less accumulated amortisation and impairment losses, on the same basis as intangible assets as above.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from its use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

#### **Estimated useful lives of intangible assets**

Estimated useful lives of the intangible assets are as follows:

- Software 6 years

#### **3.12 Impairment of tangible and intangible assets other than goodwill**

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets (other than goodwill) to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. If it is not possible to measure fair value less cost of disposal because there is no basis for making a reliable estimate of the price at which an orderly transaction to sell the asset would take place between market participants at the measurement dates under market conditions, the asset's value in use is used as recoverable amount.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

## **Inox Wind Infrastructure Services Limited**

### **Notes to the consolidated financial statements for the year ended 31 March 2020**

#### **3.13 Inventories**

Inventories are valued at lower of the cost and net realisable value. Cost is determined using weighted average cost basis.

Cost of inventories comprises all costs of purchase, duties and taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition.

Cost of finished goods and work-in-progress includes the cost of materials, conversion costs, an appropriate share of fixed and variable production overheads and other costs incurred in bringing the inventories to their present location and condition. Closing stock of imported materials include customs duty payable thereon, wherever applicable. Net realizable value represents the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

#### **3.14 Provisions and contingencies**

The Group recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

Contingent liabilities acquired in a business combination are initially measured at fair value at the acquisition date. At the end of subsequent period, such contingent liabilities are measured at the higher of the amounts that would be recognised in accordance with Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets and the amount initially recognised less cumulative amortisation recognised in accordance with Ind AS 18 Revenue, if any.

#### **3.15 Financial instruments**

Financial assets and financial liabilities are recognised when a group member becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

##### **A] Financial assets**

###### **a) Initial recognition and measurement:**

## **Inox Wind Infrastructure Services Limited**

### **Notes to the consolidated financial statements for the year ended 31 March 2020**

Financial assets are recognised when the Group becomes a party to the contractual provisions of the instrument. On initial recognition, a financial asset is recognised at fair value, in case of financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction costs are recognised in the statement of profit and loss. In other cases, the transaction costs are attributed to the acquisition value of the financial asset.

#### **b) Effective interest method:**

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the "Other income" line item.

#### **c) Subsequent measurement:**

For subsequent measurement, the Group classifies a financial asset in accordance with the below criteria:

- i. The Group's business model for managing the financial asset and
- ii. The contractual cash flow characteristics of the financial asset.

Based on the above criteria, the Group classifies its financial assets into the following categories:

##### **i. Financial assets measured at amortized cost:**

A financial asset is measured at the amortized cost if both the following conditions are met:

- a) The Group's business model objective for managing the financial asset is to hold financial assets in order to collect contractual cash flows, and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to cash and bank balances, trade receivables, loans, certain investments and other financial assets of the Group. Such financial assets are subsequently measured at amortized cost using the effective interest method.

The amortized cost of a financial asset is also adjusted for loss allowance, if any.

##### **ii. Financial assets measured at FVTOCI:**

A financial asset is measured at FVTOCI if both of the following conditions are met:

- a) The Group's business model objective for managing the financial asset is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Investments in equity instruments, classified under financial assets, are initially measured at fair value. The Group may, on initial recognition, irrevocably elect to measure the same either at FVTOCI or FVTPL. The Group makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument are recognised as other income in the Statement of Profit and Loss unless the Group has elected to measure such instrument at FVTOCI.

## **Inox Wind Infrastructure Services Limited**

### **Notes to the consolidated financial statements for the year ended 31 March 2020**

The Group does not have any financial assets in this category.

#### **iii. Financial assets measured at FVTPL:**

A financial asset is measured at FVTPL unless it is measured at amortized cost or at FVTOCI as explained above. This is a residual category applied to all other investments of the Group. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

#### **d) Derecognition:**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized (i.e. removed from the Group's Balance Sheet) when any of the following occurs:

- i. The contractual rights to cash flows from the financial asset expires;
- ii. The Group transfers its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risks and rewards of ownership of the financial asset;
- iii. The Group retains the contractual rights to receive cash flows but assumes a contractual obligation to pay the cash flows without material delay to one or more recipients under a 'pass-through' arrangement (thereby substantially transferring all the risks and rewards of ownership of the financial asset);
- iv. The Group neither transfers nor retains substantially all risk and rewards of ownership and does not retain control over the financial asset.

In cases where Group has neither transferred nor retained substantially all of the risks and rewards of the financial asset, but retains control of the financial asset, the Group continues to recognize such financial asset to the extent of its continuing involvement in the financial asset. In that case, the Group also recognizes an associated liability.

The financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

#### **e) Impairment of financial assets:**

The Group applies expected credit losses (ECL) model for measurement and recognition of loss allowance on the following:

- i. Trade receivables
- ii. Financial assets measured at amortized cost (other than trade receivables)
- iii. Financial assets measured at fair value through other comprehensive income (FVTOCI)

In case of trade receivables, the Group follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognized as loss allowance.

In case of other assets (listed as ii and iii above), the Group determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance.

## **Inox Wind Infrastructure Services Limited**

### **Notes to the consolidated financial statements for the year ended 31 March 2020**

Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Group reverts to recognizing impairment loss allowance based on 12-month ECL.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original effective interest rate.

12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset.

ECL are measured in a manner that they reflect unbiased and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

As a practical expedient, the Group uses a provision matrix to measure lifetime ECL on its portfolio of trade receivables. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward-looking estimates. At each reporting date, the historically observed default rates and changes in the forward-looking estimates are updated.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as expense/income in the Statement of Profit and Loss under the head 'Other expenses'/'Other income'.

#### **B] Financial liabilities and equity instruments**

Debt and equity instruments issued by a Group member are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

##### **i. Equity instruments:-**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Group member are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Group's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

##### **ii. Compound financial instruments:-**

Compound financial instruments issued by the Company comprise of convertible debentures denominated in INR that can be converted to equity shares at the option of the holder. The debentures will be converted into equity shares at the fair value on the date of conversion.

The fair value of the liability component of a compound financial instrument is determined using a market interest rate of a similar liability that does not have an equity conversion option. This value is recorded as a liability on an amortised cost basis until extinguished on conversion or redemption of the debentures. The remainder of the proceeds is attributable to equity portion of the instrument net of derivatives if any. The equity component is recognised and included in shareholder's equity (net of deferred tax) and is not subsequently re-measured. The derivative component is recognized at fair value and subsequently carried at fair value through profit or loss.

## **Inox Wind Infrastructure Services Limited**

### **Notes to the consolidated financial statements for the year ended 31 March 2020**

Interest related to the financial liability is recognized in profit or loss (unless it qualifies for inclusion in the cost of an asset). In case of conversion at maturity, the financial liability is reclassified to equity and no gain or loss is recognized.

#### **III. Financial Liabilities:-**

##### **a) Initial recognition and measurement:**

Financial liabilities are recognised when a Group member becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the fair value.

##### **b) Subsequent measurement:**

Financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

The Group has not designated any financial liability as at FVTPL other than derivative instrument.

##### **c) Derecognition of financial liabilities:**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid is recognized in the Statement of Profit and Loss.

#### **3.16 Derivative financial instruments and hedge accounting**

##### **a) Fair value hedge:**

Hedging instrument is initially recognized at fair value on the date on which a derivative contract is entered into and is subsequently measured at fair value at each reporting date. Gain or loss arising from changes in the fair value of hedging instrument is recognized in the Statement of Profit and Loss. Hedging instrument is recognized as a financial asset in the Balance Sheet if its fair value as at reporting date is positive as compared to carrying value and as a financial liability if its fair value as at reporting date is negative as compared to carrying value.

Hedged item is initially recognized at fair value on the date of entering into contractual obligation and is subsequently measured at amortized cost. The gain or loss on the hedged item is adjusted to the carrying value of the hedged item and the corresponding effect is recognized in the Statement of Profit and Loss.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting.

Note 37 sets out details of the fair values of the derivative instruments used for hedging purposes.

##### **b) Cash flow hedges**

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income and accumulated under the heading of cash flow hedging reserve. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss.

## **Inox Wind Infrastructure Services Limited**

### **Notes to the consolidated financial statements for the year ended 31 March 2020**

Amounts previously recognised in other comprehensive income and accumulated in equity relating to (effective portion as described above) are reclassified to profit or loss in the periods when the hedged item affects profit or loss, in the same line as the recognised hedged item. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, such gains and losses are transferred from equity (but not as a reclassification adjustment) and included in the initial measurement of the cost of the non-financial asset or non-financial liability.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting.

Any gain or loss recognised in other comprehensive income and accumulated in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognised immediately in profit or loss.

#### **3.17 Earnings Per Share**

Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the Group by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

#### **4 Critical accounting judgements and use of estimates**

In application of Group's accounting policies, which are described in Note 3, the directors of the Holding Company are required to make judgements, estimations and assumptions about the carrying value of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of revision or future periods if the revision affects both current and future periods.

Following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

##### **a) Useful lives of Property, Plant & Equipment (PPE):**

The Group has adopted useful lives of PPE as described in Note 3.10 above. The Group reviews the estimated useful lives of PPE at the end of each reporting period.

##### **b) Fair value measurements and valuation processes**

**Inox Wind Infrastructure Services Limited**

**Notes to the consolidated financial statements for the year ended 31 March 2020**

The Group measures financial instruments at fair value in accordance with the accounting policies mentioned above.

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgements and assumptions. Where necessary, the Group engages third party qualified valuers to perform the valuation.

Information about the valuation techniques and inputs used in determining the fair values of various assets and liabilities are disclosed in Note 37.

**c) Other assumptions and estimation uncertainties, included in respective notes are as under:**

- Recognition of deferred tax assets is based on estimates of taxable profits in future years. The Group prepares detailed cash flow and profitability projections, which are reviewed by the board of directors of the Group. Estimation of current tax expense and payable, recognition of deferred tax assets and possibility of utilizing available tax credits – see Note 44
- Measurement of defined benefit obligations and other long-term employee benefits: – see Note 38
- Assessment of the status of various legal cases/claims and other disputes where the Group does not expect any material outflow of resources and hence these are reflected as contingent liabilities. Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources – see Note 40
- Impairment of financial assets – see Note 37

The Group has recognised deferred tax assets on its unabsorbed depreciation and business losses carried forward. The Group has executed long term Operation & maintenance contracts with the customers. Revenue in respect of such contracts will get recognised in future years as per the accounting policy of the group. Based on these contracts, the group has reasonable certainty as on the date of the balance sheet, that there will be sufficient taxable income available to realize such assets in the near future. Accordingly, the Group has created deferred tax assets on its carried forward unabsorbed depreciation and business losses.

**INOX WIND INFRASTRUCTURE SERVICES LIMITED**

Notes to the consolidated financial statements for the year ended 31 March 2020

**22A : Deferred tax balances**

The Group has following unused tax losses under the Income-tax Act for which no deferred tax asset has been recognised:

Nature of tax loss	Financial Year	Gross	Expiry date
		amount as at 31 March 2020 (Rs. in Lakhs)	
Business Losses	2015-16	364.23	2023-24
	2016-17	451.81	2023-24
	2017-18	868.89	2025-26
	2018-19	1,112.46	2026-27
	2019-20	510.30	2027-28
Unabsorbed depreciation	2015-16	1.51	NA
	2016-17	2.00	NA
	2017-18	3.10	NA
	2018-19	2.64	NA
	2019-20	2.24	NA

No deferred tax liability has been recognised in respect of undistributed earnings of the subsidiaries as in the opinion of the management, the parent is able to control the timing of the temporary differences and the temporary differences will not reverse in the foreseeable future.

**INOX WIND INFRASTRUCTURE SERVICES LIMITED****Notes to the consolidated financial statements for the year ended 31 March 2020****36. Capital Management**

For the purpose of the Group's capital Management, capital includes issued equity share capital, security premium and all other equity reserves attributable to the equity holders of the Group.

The Group's capital Management objectives are:

- to ensure the Group's ability to continue as a going concern
- to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group monitors capital using a gearing ratio, which is net debt divided by total equity. The Group includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents, excluding discontinued operations, if any.

The gearing ratio at the end of the reporting period was as follows:

Particulars	(Rs. in Lakhs)	
	As at 31 March 2020	As at 31 March 2019
Total debt	1,13,310.10	1,18,315.06
Less: Cash and bank balances (excluding bank deposits kept as lien)	640.80	701.57
<b>Net debt</b>	<b>1,12,669.30</b>	<b>1,17,613.49</b>
Total Equity	9,654.22	4,894.75
<b>Net debt to equity ratio</b>	<b>1167.05%</b>	<b>2402.85%</b>

In order to achieve this overall objective, the Group's capital Management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March, 2020 and 31 March, 2019.

**INOX WIND INFRASTRUCTURE SERVICES LIMITED**

Notes to the consolidated financial statements for the year ended 31 March 2020

**37. Financial Instruments****(i) Categories of financial instruments**

	As at 31 March 2020	As at 31 March 2019
<b>(a) Financial assets</b>		
<b>Measured at amortised cost</b>		
(a) Cash and bank balances	1,889.04	1,243.60
(b) Trade receivables	24,985.96	18,462.22
(c) Loans	1,981.32	1,245.22
(e) Other financial assets	43,996.93	37,677.89
	<b>72,853.25</b>	<b>58,628.93</b>
<b>Measured at fair value through profit or loss (FVTPL)</b>		
(a) Investment in mutual funds	285.48	133.66
	<b>285.48</b>	<b>133.66</b>
<b>Total</b>	<b>73,138.73</b>	<b>58,762.59</b>
<b>(b) Financial liabilities</b>		
<b>Measured at fair value through profit or loss (FVTPL)</b>		
Derivative financial liabilities	1,175.97	1,517.12
<b>Measured at amortised cost</b>		
(a) Borrowings	1,13,310.10	1,18,315.06
(b) Trade payables	41,090.06	37,804.49
(c) Other financial liabilities	31,651.31	4,998.94
	<b>1,86,051.47</b>	<b>1,61,118.49</b>

The carrying amount reflected above represents the entity's maximum exposure to credit risk for such financial assets.

**(ii) Financial risk management**

The Group's principal financial liabilities comprise of borrowings from its holding company, trade and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principle financial assets includes trade and other receivables, cash and bank balances, derived directly from its operations. The Group is exposed to market risk, credit risk and liquidity risk.

**(iii) Market Risk**

Market risk is that the fair value of future cash flows of a financial instrument will fluctuate because of change in market price. The Group does not have any foreign currency exposure and hence is not subject to foreign currency risks. The entire borrowing of the Group is at a fixed rate. Hence the Group is not subject to any interest rate risks. Further, the Group does not have any investments other than strategic investments in subsidiaries and investment in NSC and hence is not subject to other price risks.

**(iv) Interest rate risk management**

Interest rate risk refers to the possibility that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rate. The group is exposed to interest rate risk because it borrows funds at both fixed and floating interest rates. The risk is managed by the group by maintaining an appropriate mix between fixed and floating rate borrowings.

**Interest rate sensitivity analysis**

The sensitivity analysis below have been determined based on the exposure to interest rates for floating rate liabilities at the end of the reporting period. For floating rate liabilities, a 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the group's profit for the year ended 31 March 2020 would decrease/increase by INR 53.24 Lakhs net of tax. This is mainly attributable to the group's exposure to interest rates on its variable rate borrowings.

**INOX WIND INFRASTRUCTURE SERVICES LIMITED**

Notes to the consolidated financial statements for the year ended 31 March 2020

**37. Financial Instruments****(v) Other price risks**

The Group is exposed to equity price risk arising from equity instruments, other than investments in associates which are held for strategic rather than trading purposes. The Group does not actively trade these investments. Hence the Group's exposure to equity price risk is minimal.

**(vi) Credit risk management**

Credit risk refers to risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. Credit risk arises primarily from financial assets such as trade receivables, other balances with banks, loans and other receivables.

**a) Trade receivables**

Credit risk arising from trade receivables is managed in accordance with the Group's established policy, procedures and control relating to customer credit risk management. The Group is providing O&M services and is having long term contracts with such customers. Accordingly, risk of recovery of such amounts is mitigated. Customers who represents more than 5% of the total balance of Trade Receivable as at 31 March, 2020 is Rs. 14,301.60 lakhs (as at 31 March, 2019 of Rs. 8,768.64 lakhs) are due from 5 major customers who are reputed parties. All trade receivables are reviewed and assessed for default at each reporting period.

For trade receivables, as a practical expedient, the Group computes credit loss allowance based on a provision matrix. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward-looking estimates. The provision matrix at the end of the reporting period is as follows and during the year the Group has changed the provision matrix considering the long term outstanding and credit risk.

**Expected credit loss (%)**

Ageing	2019-2020
0-1 Year	1%

**INOX WIND INFRASTRUCTURE SERVICES LIMITED**

Notes to the consolidated financial statements for the year ended 31 March 2020

**37. Financial Instruments**
**Movement in the expected credit loss allowance :**

(Rs. in Lakhs)

Particulars	As at	As at
	31 March 2020	31 March 2019
Balance at beginning of the year	269.93	157.18
Movement in expected credit loss allowance	2,025.74	112.75
<b>Balance at end of the year</b>	<b>2,295.67</b>	<b>269.93</b>

**b) Loans and Other Receivables**

The Group applies expected credit losses (ECL) model for measurement and recognition of loss allowance on the loans given by the Group to the external parties. ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Group expects to receive (i.e., all cash shortfalls), discounted at the original effective interest rate.

The Group determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance.

12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset.

ECL are measured in a manner that they reflect unbiased and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/expense in the Statement of Profit and Loss under the head 'Other expenses'.

**c) other financial assets**

Credit risk arising from other balances with banks is limited because the counterparties are banks. There is no collateral held against such investments.

**(vii) Liquidity Risk Management**

Ultimate responsibility for liquidity risk management rests with the committee of board of directors of the Group, which has established an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

**Liquidity risk table**

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Group may be required to pay.

**a) Non-Derivative Financial Liabilities :**

The table below provides details regarding the contractual maturities of financial liabilities including estimated interest payments as at 31 March 2020:

Particulars	(Rs. in Lakhs)			
	Less than 1 year	1 to 5 year	5 years and above	Total
Borrowings (Including Interest)	83,067.43	30,242.67	-	1,13,310.10
Trade payables	41,090.06	-	-	41,090.06
Derivative financial liabilities	-	1,175.97	-	1,175.97
Other financial liabilities	31,651.31	-	-	31,651.31
	<b>1,55,808.80</b>	<b>31,418.64</b>	<b>-</b>	<b>1,87,227.44</b>

**INOX WIND INFRASTRUCTURE SERVICES LIMITED****Notes to the consolidated financial statements for the year ended 31 March 2020****37. Financial Instruments**

The table below provides details regarding the contractual maturities of financial liabilities including estimated interest payments as at 31 March 2019:

Particulars	(Rs. in Lakhs)			
	Less than 1 year	1 to 5 year	5 years and above	Total
Borrowings	62,767.05	52,628.53	-	1,15,395.58
Trade payables	37,804.49	-	-	37,804.49
Derivative financial liabilities	-	1,517.12	-	1,517.12
Other financial liabilities	7,918.42	-	-	7,918.42
	1,08,489.96	54,145.65	-	1,62,635.61

The above liabilities will be met by the Group from internal accruals, realization of current and non-current financial assets (other than strategic investments). Further, the Group also has unutilised financing facilities

**INOX WIND INFRASTRUCTURE SERVICES LIMITED**  
**Notes to the consolidated financial statements for the year ended 31 March 2020**  
**37. Financial Instruments - continued**

(viii) Fair Value of the Entity's financial assets and financial liabilities that are measured at fair value on a recurring basis:

Financial assets/(Financial liabilities)	Fair Value as at		Fair Value Hierarchy	Valuation Technique(s) & key inputs used	Significant unobservable input(s)	Relationship of unobservable inputs to fair value
	31 March 2020	31 March 2019				
(a) Optionally convertible debentures (Refer Note 20)	(1,175.97)	(1,517.12)	Level 2	Discounted cash flow. Future cash flows are estimated based on forward exchange rates (from observable yield curves at the end of the reporting period) and contract interest rates, discounted at a rate that reflects the credit risk of various counterparties.	NA	NA
b) Investment in Mutual Fund (see note 8)	285.48	133.66	Level 2	The use of net asset value (NAV) for the mutual fund on the basis of the statement received from the investee party.	NA	NA

During the period, there were no transfers between Level 1 and level 2

(ix) Fair value of financial assets and financial liabilities that are not measured at fair value (but fair value disclosures are required)

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the group does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

**INOX WIND INFRASTRUCTURE SERVICES LIMITED**

Notes to the consolidated financial statements for the year ended 31 March 2020

**38. Employee benefits:****(a) Defined Contribution Plans**

The Company contributes to the Government managed provident and pension fund for all qualifying employees.

Contribution to provident fund of Rs 85.17 Lakhs (previous year Rs 92.90 Lakhs) is recognized as an expense and included in "Contribution to provident and other funds" in Statement of Profit and Loss.

**(b) Defined Benefit Plans:**

The Company has defined benefit plan for payment of gratuity to all qualifying employees. It is governed by the Payment of Gratuity Act, 1972. Under this Act, an employee who has completed five years of service is entitled to the specified benefit. The level of benefits provided depends on the employee's length of service and salary at retirement age. The Company's defined benefit plan is unfunded.

There are no other post retirement benefits provided by the Company.

The most recent actuarial valuation of the present value of the defined benefit obligation were carried out as at 31 March 2020 by Mr.G. N. Agarwal, Fellow of the Institute of the Actuaries of India. The present value of the defined benefit obligation, the related current service cost and past service cost, were measured using the projected unit credit method.

Movement in the present value of the defined benefit obligation are as follows :	(Rs. in Lakhs)	
	Gratuity	
Particulars	31 March 2020	31 March 2019
Opening defined benefit obligation	125.05	150.98
Interest cost	9.37	10.89
Current service cost	47.62	64.52
Benefits paid	(11.53)	(12.64)
Actuarial (gain) / loss on obligations	(32.88)	(88.70)
<b>Present value of obligation as at the year end</b>	<b>137.63</b>	<b>125.05</b>

Components of amounts recognised in profit or loss and other comprehensive income are as under:

Gratuity	(Rs. in Lakhs)	
	31 March 2020	31 March 2019
Current service cost	47.62	64.52
Interest cost	9.37	10.89
<b>Amount recognised in profit or loss</b>	<b>56.99</b>	<b>75.41</b>
Actuarial (gain)/loss		
a) arising from changes in financial assumptions	14.00	(1.27)
b) arising from experience adjustments	(46.88)	(87.43)
<b>Amount recognised in other comprehensive</b>	<b>(32.88)</b>	<b>(88.70)</b>
<b>Total</b>	<b>24.11</b>	<b>(13.29)</b>

**INOX WIND INFRASTRUCTURE SERVICES LIMITED**

Notes to the consolidated financial statements for the year ended 31 March 2020

**38. Employee benefits:**

The principal assumptions used for the purposes of the actuarial valuations of gratuity are as follows:

Particulars	31 March 2020	31 March 2019
Discount rate (per annum)	6.66%	7.61%
Expected rate of salary increase	8.00%	8.00%
Employee attrition rate	5%	5%
Mortality	IALM(2006-08)Ultimate Mortality Table	

Estimates of future salary increases considered in actuarial valuation take account of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

These plans typically expose the Company to actuarial risks such as interest rate risk and salary risk.

a) Interest risk: a decrease in the bond interest rate will increase the plan liability.

b) Salary risk: the present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an variation in the expected rate of salary increase of the plan participants will change the plan liability.

**Sensitivity analysis**

Significant actuarial assumptions for the determination of defined obligation are discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Particulars	Gratuity	
	2019-20	2018-19
Impact on present value of defined benefit obligation:		
If discount rate is increased by 1%	(14.67)	(12.82)
If discount rate is decreased by 1%	17.56	15.28
If salary escalation rate is increased by 1%	16.75	14.70
If salary escalation rate is decreased by 1%	(14.29)	(12.57)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumption would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

**INOX WIND INFRASTRUCTURE SERVICES LIMITED**

Notes to the consolidated financial statements for the year ended 31 March 2020

**38. Employee benefits:**

Expected outflow in future years (as provided in actuarial report)

Particulars	(Rs. in Lakhs)	
	2019-20	2018-19
	<b>Gratuity</b>	
Expected outflow in 1st Year	4.84	3.72
Expected outflow in 2nd Year	5.47	4.97
Expected outflow in 3rd Year	7.24	6.37
Expected outflow in 4th Year	6.57	7.54
Expected outflow in 5th Year	7.30	16.19
Expected outflow in 6th to 10th Year	70.94	49.31

The average duration of the defined benefit plan obligation at the end of the reporting period is 10.90 years.

**(c) Other long term employment benefits:****Annual leave & Short term leave**

The liability towards compensated absences (annual and short term leave) for the year ended 31 March 2020 based on actuarial valuation carried out by using Projected accrued benefit method resulted in increase in liability by Rs. 2.78 lakhs (31 March 2019: decrease in liability by Rs. 65.61 lakhs), which is included in the employee benefits in the Statement of Profit and Loss.

The principal assumptions used for the purposes of the actuarial valuations of compensated absences are as follows:

Particulars	As at	
	31 March 2020	31 March 2019
Discount rate	6.66%	7.61%
Expected rate of salary increase	8.00%	8.00%
Employee attrition rate	5.00%	5.00%
Mortality rate	IALM(2006-08)Ultimate Mortality Table	

## **INOX WIND INFRASTRUCTURE SERVICES LIMITED**

**Notes to the consolidated financial statements for the year ended 31 March 2020**

### **39: Balance Confirmation**

The Group has a system of obtaining periodic confirmation of balances from banks, trade receivables/payables and other parties. The balance confirmation letters as referred in the Standard on Auditing (SA) 505 (Revised) 'External Confirmations', were sent to banks and parties and certain parties' balances are subject to confirmation/reconciliation. Adjustments, if any will be accounted for on confirmation/reconciliation of the same, which in the opinion of the management will not have a material impact.

### **40: Contingent liabilities**

(a) Claims against the Group not acknowledged as debts: claims made by contractors - Rs. 5,450.36 lakhs (as at 31 March 2019: Rs. 3,578.36 lakhs)

Some of the suppliers have raised claims including interest on account of non payment in terms of the respective contracts. The Group has contended that the suppliers have not adhered to some of the contract terms. At present the matters are pending before the jurisdictional authorities or are under negotiations.

b) In respect of claims made by three customers for non-commissioning of WTGs, the amount is not ascertainable.

c) Claims made by customer not acknowledged as debts Rs 3,132.00 lakhs (as at 31 March 2019: Nil).

d) Claims made by vendors in National Company Law Tribunal (NCLT) for Rs. 622.04 Lakhs.

e) Claim against the Group by the supplier - Rs 22.71 lakhs (as at 31 March 2019: Nil)

f) In respect of Service tax matter- Rs 265.80 lakhs (as at 31 March 2019: Nil)

The Group has received orders for the period April 2016 to March 2017, in respect of Service Tax, levying demand of Rs 265.80 lakhs on account of advance revenue received on which service tax has been already paid in financial year 2015-16. Since Service Tax Liability has been already discharged on such advance revenue, The Group has filed appeals before CESTAT. The Group has paid Rs 19.93 lakhs as pre deposit for filling of appeal.

g) In respect of Income tax matter- Rs 580.15 lakhs (as at 31 March 2019: Nil)

The Group has received orders for the period Assessment Year 2016-17, in respect of Income Tax, levying demand of Rs 580.15 lakhs on account of addition in income without considering the modus operandi of the business of the group. The Group has filed appeal before commissioner of Income Tax (CIT Appeals) The Group has paid Rs 10.00 lakhs under protest.

In respect of above matters, no additional provision is considered necessary as the Group expects favourable outcome. Further, it is not possible for the Group to estimate the timing and amounts of further cash outflows, if any, in respect of these matters.

Due to unascertainable outcome for pending litigation matters with Court/Appellate Authorities, the Company's management expects no material adjustments on the consolidated financial statements.

### **41: Capital & Other Commitments**

#### **Capital Commitments**

(a) Estimated amounts of contracts remaining to be executed on capital account and not provided for (net of advances) is Rs. 6,391.80 Lakhs, (31 March 2019: Rs. 3,701.48 Lakhs).

**INOX WIND INFRASTRUCTURE SERVICES LIMITED****Notes to the consolidated financial statements for the year ended 31 March 2020****Other Commitments**

(a) Bank Guarantee issued by the Group to its customer for Rs. 6,817.00 Lakhs (as at 31 March 2019 is Rs. 10,000 Lakhs)

**42: Leases**

The Group has adopted Ind AS 116 "Leases" effective from April 01, 2019 and considered all material leases contracts existing on April 01, 2019. The Group neither have any existing material lease contract as on April, 01, 2019 nor executed during the year. The adoption of the standard does not have any impact on the financial statement of the group. Following are the details of lease contracts which are short term in nature:

<b>i. Amount recognized in statement of profit and loss</b>		<b>(Rs.in Lakhs)</b>
<b>Particulars</b>		<b>As at 31-Mar-20</b>
Included in rent expenses; Expense relating to short-term leases		332.38

**ii. Amounts recognised in the statement of cash flows**

<b>Particulars</b>	<b>As at 31-Mar-20</b>
Total cash outflow for leases	332.38

**43: Segment Information**

Information reported to the chief operating decision maker (CODM) for the purpose of resource allocation and segment performance focuses on single business segment of Erection, Procurement & Commissioning ("EPC"), Operations & Maintenance ("O&M") and Common Infrastructure Facilities services for WTGs, and wind farm development services and hence there is only one reportable business segment in terms of Ind AS 108: Operating Segment.

Four customers (Previous year 1 customer) contributed more than 10% of the total Group's revenue amounting to Rs. 18,827.56 lakhs (31 March 2019: Rs. 4,117.23 lakhs).

**INOX WIND INFRASTRUCTURE SERVICES LIMITED**
**Notes to the consolidated financial statements for the year ended 31 March 2020**
**44. Income tax recognised in Statement of Profit and Loss**

Particulars	(Rs. in Lakhs)	
	2019-2020	2018-2019
<b>Current tax</b>		
In respect of the current year	10.36	-
Minimum Alternate Tax (MAT) credit	(10.36)	-
Taxation pertaining to earlier years	0.24	-
	<u>0.24</u>	<u>-</u>
<b>Deferred tax</b>		
In respect of the current year	(2,614.49)	(3,179.13)
	<u>(2,614.49)</u>	<u>(3,179.13)</u>
<b>Total income tax expense recognised in the current year</b>	<u>(2,614.25)</u>	<u>(3,179.13)</u>

The income tax expense for the year can be reconciled to the accounting profit as follows:

Particulars	2019-2020	2018-2019
Profit before tax	(7,833.42)	(8,475.93)
Income tax expense calculated at 34.944% (2018-2019: 34.944%)	(2,625.97)	(3,140.33)
Effect of expenses that are not deductible in determining taxable profits	11.48	-
Others	-	(38.80)
	<u>(2,614.49)</u>	<u>(3,179.13)</u>
Taxation pertaining to earlier years	0.24	-
<b>Income tax expense recognised in Statement of Profit and Loss</b>	<u>(2,614.25)</u>	<u>(3,179.13)</u>

The tax rate used for the years ended 31 March 2020 in reconciliation is 34.944% and for year ended 31 March 2019 is the corporate tax rate of 34.944% payable by corporate entities in India on taxable profits under the Indian tax law.

\* The above companies have ceased to be associates during the FY 2018-19 and have become subsidiary of the Group. (See note 45)

## **INOX WIND INFRASTRUCTURE SERVICES LIMITED**

**Notes to the consolidated financial statements for the year ended 31 March 2020**

### **49: Impact of Covid-19**

Due to outbreak of COVID-19 globally and in India, the Group's management has made Initial assessment of impact on business and financial risks on account of COVID-19. Considering that the group is in the business of Erection, procurement and operation & maintenance services of Wind Turbine Generator in Renewable Energy Sector, the management believes that the impact of this outbreak on the business and financial position of the group will not be significant. The management does not see any risks in the group's ability to continue as a going concern and meeting its liabilities as and when they fall due. The group has used the principles of prudence in applying judgments, estimates and assumptions and based on the current estimates, the group expects to recover the carrying amount of trade receivables including unbilled receivables, investments, inventories and other assets. The eventual outcome of impact of the global health pandemic may be different from those estimated as on the date of approval of these financial statements.

**50:** The Group has policy to recognise revenue from operations & maintenance (O&M) over the period of the contract on a straight-line basis. The Group has recognised revenue amounting to Rs. 1,189.87 Lakhs related to O&M contract signed during the year due to uncertainty of realization in earlier periods. Further O&M agreement of 303 WTGs has been cancelled with different customers and the group's management expects no material adjustments on the Consolidated Financial Statements since all the common infrastructure O&M remains with the Group.

### **51: Note on Advance received from customers**

During the year, the Group has signed supply contracts for 125.4 MW Wind power projects of 38 Nos of 3300 KW WTG (Model WT3000DF) in the State of Gujarat with Gujarat Fluorochemicals Limited (GFCL). The Group has received the interest bearing advance of Rs. 16,678.20 Lakhs against the contracts. The Group is in process of fulfilment of the terms and conditions of the contracts.

**52:** Group has work-in-progress inventory amounting Rs.13,874.43 Lakh for project development, erection & commissioning work and Common infrastructure facilities in different states. The respective State Governments are yet to announce the policy on Wind Farm Development. In the view of the management, the group will be able to realise the inventory on execution of projects once Wind Farm Development policy is announced by respective State Governments.

**53:** The Group has a comprehensive system of maintenance of information and documents as required by the Goods and Services Act ("GST Act"). Since the GST Act requires existence of such information and documentation to be contemporaneous in nature, the Group appoints independent GST auditor for conducting GST audit to determine whether the all transactions have been duly recorded and reconcile with the GST Portal. Adjustments, if any, arising from the GST Audit shall be accounted for as and when the audit is completed for the current financial year. However, the management is of the opinion that the aforesaid legislations will not have any impact on the Consolidated financial statements.

**INOX WIND INFRASTRUCTURE SERVICES LIMITED**

Notes to the consolidated financial statements for the year ended 31 March 2020

**54: Revenue from contracts with customers as per Ind As 115****(A) Disaggregated revenue information**

In the following table, revenue from contracts with customers is disaggregated by primary major products and service lines. Since the Group has only one reportable business segment, no reconciliation of the disaggregated revenue is required:

Reportable segment/Manufacture of Wind Turbine

Particulars	(Rs. In Lakhs)	
	2019-20	2018-19
Major Product/ Service Lines		
Sale of services	39,800.15	20,763.34
Others	304.64	54.98
<b>Total</b>	<b>40,104.79</b>	<b>20,818.32</b>

**(B) Contract balances**

All the Trade Receivables and Contract Liabilities have been separately presented in notes to accounts.

**55: Corporate Social Responsibilities (CSR)**

(a) The gross amount required to be spent by the Group during the year towards Corporate Social Responsibility (CSR) is NIL (31 March 2019 Rs Nil).

(b) Amount spent during the year ended 31 March 2020:

Particulars	(Rs. in Lakhs)		
	In Cash	Yet to be paid in cash	Total
(i) Construction/acquisition of any fixed assets	Nil (Nil)	Nil (Nil)	Nil (Nil)
(ii) On purpose other than (i) above - Donations	Nil (Nil)	Nil (Nil)	Nil (Nil)

(Figures in brackets pertain to 31 March 2019)

56: There have been no delays in transferring amounts required to be transferred to the Investor Education and Protection Fund.

**57: Events after the Reporting period**

There are no events observed after the reported period which have an impact on the Group operations.
